Operating Instructions

Thank you for purchasing this Panasonic product. Please read these instructions carefully before operating this product and retain them for future reference.

The images shown in this manual are for illustrative purposes only. Please refer to Pan European Guarantee Card if you need to contact your local Panasonic dealer for assistance.
Notice for DVB / Data broadcasting / IPTV functions

- This TV is designed to meet the standards (as of August, 2011) of DVB-T (MPEG2 and MPEG4-AVC(H.264)) digital terrestrial services and DVB-C (MPEG2 and MPEG4-AVC(H.264)) digital cable services. Consult your local dealer for availability of DVB-T services in your area.
- Consult your cable service provider for availability of DVB-C services with this TV.
- This TV may not work correctly with the signal which does not meet the standards of DVB-T or DVB-C.
- Not all the features are available depending on the country, area, broadcaster, service provider and network environment.
- Not all CI modules work properly with this TV. Consult your service provider about the available CI module.
- This TV may not work correctly with CI module that is not approved by the service provider.
- Additional fees may be charged depending on the service provider.
- The compatibility with future services is not guaranteed.
- Check the latest information on the available services at the following website. (English only) http://panasonic.jp/support/global/cs/tv/
Transport only in upright position

Panasonic does not guarantee operation and performance of peripheral devices made by other manufacturers; and we disclaim any liability or damage arising from operation and/or performance from usage of such other maker’s peripheral devices.

This product is licensed under the AVC patent portfolio license for the personal and non-commercial use of a consumer to (i) encode video in compliance with the AVC Standard (“AVC Video”) and/or (ii) decode AVC Video that was encoded by a consumer engaged in a personal and non-commercial activity and/or was obtained from a video provider licensed to provide AVC Video. No license is granted or shall be implied for any other use. Additional information may be obtained from MPEG LA, LLC. See http://www.mpegla.com.

Rovi Corporation and/or its subsidiaries and related affiliates are not in any way liable for the accuracy or availability of the program schedule information or other data in the GUIDE Plus+/Rovi Guide system and cannot guarantee service availability in your area. In no event shall Rovi Corporation and/or its related affiliates be liable for any damages in connection with the accuracy or availability of the program schedule information or other data in the GUIDE Plus+/Rovi Guide system.

Handling the mains plug and lead
- Insert the mains plug fully into the socket outlet. (If the mains plug is loose, it could generate heat and cause fire.)
- Ensure that the mains plug is easily accessible.
- Do not touch the mains plug with a wet hand. This may cause electrical shock.
- Do not use any mains lead other than that provided with this TV. This may cause fire or electrical shock.
- Do not damage the mains lead, damaged lead may cause fire or electrical shock.
  - Do not move the TV with the lead plugged into a socket outlet.
  - Do not place a heavy object on the lead or place the lead near a high temperature object.
  - Do not twist the lead, bend it excessively or stretch it.
  - Do not pull on the lead. Hold onto the mains plug body when disconnecting the plug.
- Do not use a damaged mains plug or socket outlet.
- Ensure the TV does not crush the mains lead.

Power source / Installation
- This TV is designed for:
  - AC 220-240 V, 50 / 60 Hz
  - Table-top use

Do not remove covers and NEVER modify the TV yourself
- High voltage components may cause serious electrical shock, do not remove the rear cover as live parts are accessible when it is removed.
- There are no user serviceable parts inside.
- Have the TV checked, adjusted or repaired at your local Panasonic dealer.

Do not expose the TV to direct sunlight and other sources of heat
- Avoid exposing the TV to direct sunlight and other sources of heat.

To prevent the spread of fire, keep candles or other open flames away from this product at all times

If you find any abnormality, remove the mains plug immediately!

Do not expose to rain or excessive moisture
- To prevent damage which might result in electric shock or fire, do not expose this TV to rain or excessive moisture.
- This TV must not be exposed to dripping or splashing water and objects filled with liquid, such as vases, must not be placed on top of or above the TV.

Do not place foreign objects inside the TV
- Do not allow any objects to drop into the TV through the air vents as fire or electric shock may result.

Do not place the TV on sloped or unstable surfaces, and ensure that the TV does not hang over the edge of the base
- The TV may fall or tip over.

Use only original dedicated pedestal / mounting equipment
- Using an unapproved pedestal or other fixtures may make the TV unstable, risking injury. Be sure to ask your local Panasonic dealer to perform the setup or installation.
- Use approved pedestals (p. 7) / wall-hanging brackets (p. 6).

Do not allow children to handle SD Card or dangerous parts
- As with any small object, the SD Card could be swallowed by young children. Please remove SD Card immediately after use and store out of reach of children.
- This product contains possibly dangerous parts that can be breathed in or swallowed by young children accidentally. Keep these parts out of reach of young children.
Safety Precautions

Radio waves
- Do not use the TV in any medical institutions or locations with medical equipment. Radio waves from the TV may interfere with the medical equipment and cause accidents due to the malfunction.
- Do not use the TV near any automatic control equipment such as automatic doors or fire alarms. Radio waves from the TV may interfere with the automatic control equipment and cause accidents due to the malfunction.

Caution

When cleaning the TV, remove the mains plug
- Cleaning an energised TV may cause electric shock.

Remove the mains plug from the wall socket when the TV is not in use for a prolonged period of time
- This TV will still consume some power even in the Off mode, as long as the mains plug is still connected.

Do not expose your ears to excessive volume from the headphones
- Irreversible damage can be caused.

Do not apply strong force or impact to the display panel
- This may cause damage resulting in injury.

Do not block the rear air vents
- Adequate ventilation is essential to prevent failure of electronic components.
- Ventilation should not be impeded by covering the ventilation openings with items such as newspapers, table cloths and curtains.
- We recommend that a gap of at least 10 cm is left all around this TV even when placed inside a cabinet or between shelves.
- When using the pedestal, keep the space between the bottom of the TV and the surface where the TV is set.
- If pedestal is not used, ensure the vents in the bottom of the TV are not blocked.

  a: 400 mm
  b: 400 mm

Warning
- Failure to use a Panasonic bracket or choosing to mount the unit yourself will be done at the risk of the consumer. Always be sure to ask a qualified technician to carry out set up. Incorrect fitting may cause equipment to fall, resulting in injury and product damage. Any damage resulting from not having a professional installer mount your unit will void your warranty.
- When any optional accessories or wall hanging brackets are used, always ensure that the instructions provided are followed fully.
- Do not mount the unit directly below ceiling lights (such as spotlights or halogen lights) which typically give off high heat. Doing so may warp or damage plastic cabinet parts.
- Take care when fixing wall brackets to the wall. Wall mounted equipment shall not be grounded by metal within the wall. Always ensure that there are no electrical cables or pipes in the wall before hanging bracket.
- To prevent fall and injury, remove the TV from its fixed wall position when it is no longer in use.
Wireless LAN Adaptor and exclusive stand
* TY-WL20E-K
   * To use the Wireless LAN Adaptor, an access point needs to be obtained.
   * It is recommended to use the Wireless LAN Adaptor with the extension cable.
   * To avoid malfunctions caused by radio wave interference, keep the TV away from the devices such as other wireless LAN devices, microwaves and the devices that use 2.4 GHz and 5 GHz signals when using the Wireless LAN Adaptor.
   * Depending on the area, this optional accessory may not be available.
   * Additional information for Wireless LAN Adaptor and access point may be on the following website. (English only)
     http://panasonic.jp/support/global/cs/tv/

Communication Camera
* TY-CC20W
   * This camera can be used on VIERA Connect (p. 18, 81).
   * Depending on the area, this optional accessory may not be available.
   For details, consult your local Panasonic dealer.

### Installing / removing remote’s batteries

<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Pull Open</td>
</tr>
<tr>
<td>2</td>
<td>Close</td>
</tr>
</tbody>
</table>

#### Caution
* Incorrect installation may cause battery leakage and corrosion, resulting in damage to the remote control.
* Do not mix old and new batteries.
* Replace only with same or equivalent type. Do not mix different battery types (such as alkaline and manganese batteries).
* Do not use rechargeable (Ni-Cd) batteries.
* Do not burn or break up batteries.
* Do not expose batteries to excessive heat such as sunshine, fire or the like.
* Make sure you dispose of batteries correctly.
* Ensure batteries are replaced correctly, there is danger of explosion and fire if battery is reversed.
* Do not disassemble or modify the remote control.

### Attaching / removing the pedestal

#### Warning
* Do not disassemble or modify the pedestal.
  * Otherwise the TV may fall over and become damaged, and personal injury may result.

#### Caution
* Do not use any pedestal other than the one provided with this TV.
  * Otherwise the TV may fall over and become damaged, and personal injury may result.
* Do not use the pedestal if it becomes warped or physically damaged.
  * If you use the pedestal while it is physically damaged, personal injury may result. Contact your local Panasonic dealer immediately.

During set-up, make sure that all screws are securely tightened.
* If insufficient care is taken to ensure screws are properly tightened during assembly, the pedestal will not be strong enough to support the TV, and it might fall over and become damaged, and personal injury may result.

Ensure that the TV does not fall over.
* If the TV is knocked or children climb onto the pedestal with the TV installed, the TV may fall over and personal injury may result.

Two or more people are required to install and remove the TV.
* If two or more people are not present, the TV may be dropped, and personal injury may result.

When removing the pedestal from the TV, do not remove the pedestal by the methods other than the specified procedure. (p. 8)
* Otherwise the TV and / or pedestal may fall over and become damaged, and personal injury may result.
**Assembling the pedestal**
Use the assembly screws (4) to fasten the bracket (C) to the base (D) securely.
- Make sure that the screws are securely tightened.
- Forcing the assembly screws the wrong way will strip the threads.

**Securing the TV**
Use the assembly screws to fasten securely.
- Tighten the four assembly screws loosely at first, then tighten them firmly to fix securely.
- Carry out the work on a horizontal and level surface.

---

**Removing the pedestal from the TV**
Be sure to remove the pedestal in the following way when using the wall-hanging bracket or repacking the TV.
1. Remove the assembly screws (4) from the TV.
2. Pull out the pedestal from the TV.
3. Remove the assembly screws (4) from the bracket.

---

**Preventing the TV from falling over**
Using the fall-prevent screw hole and a screw (commercially available), securely fix the body of the pedestal to the installation surface.
- The place where the pedestal is to be fixed should be thick enough and made of hard material.
Identifying Controls

Remote Control

1 Standby On / Off switch
  - Switches TV on or off standby.

2 OFF TIMER (p. 21)
  - Turn the TV to Standby mode automatically after a fixed period.

3 [Main Menu] (p. 31)
  - Press to access Picture, Sound, Timer and Setup Menus.

4 Aspect (p. 22)
  - Changes aspect ratio.

5 Information (p. 20)
  - Displays channel and programme information.

6 VIERA TOOLS (p. 30)
  - Displays some special feature icons and accesses easily.

7 INTERNET ([VIERA Connect]) (p. 18, 72)
  - Displays VIERA Connect home screen.

8 OK
  - Confirms selections and choices.
  - Press after selecting channel positions to quickly change channel.
  - Displays the Channel List.

9 [Option Menu] (p. 21)
  - Easy optional setting for viewing, sound, etc.

10 Coloured buttons (red-green-yellow-blue)
  - Used for the selection, navigation and operation of various functions.

11 Teletext (p. 26)
  - Switches to teletext mode.

12 Subtitles (p. 20)
  - Displays subtitles.

13 Numeric buttons
  - Changes channel and teletext pages.
  - Sets characters.
  - When in Standby mode, switches TV on (Press for about 1 second).

14 Sound Mute
  - Switches sound mute on or off.

15 Volume Up / Down

16 Input mode selection
  - TV - switches DVB-C / DVB-T / Analogue mode. (p. 19)
  - AV - switches to AV input mode from Input Selection list. (p. 28)

17 Surround (p. 34)
  - Switches surround sound setting

18 Normalise (p. 31)
  - Resets picture and sound settings to their default levels

19 Exit
  - Returns to the normal viewing screen.

20 TV Guide (p. 23)

21 Cursor buttons
  - Makes selections and adjustments.

22 Return
  - Returns to the previous menu / page.

23 Hold
  - Freezes / unfreezes the picture. (p. 21)
  - Holds the current teletext page (teletext mode). (p. 26)

24 Index (p. 26)
  - Returns to the teletext index page (teletext mode).

25 Last view (p. 22)
  - Switches to previously viewed channel or input mode.

26 Channel Up / Down

27 Operations for contents, connected equipment, etc. (p. 29, 56, 69)
Using the On Screen Displays - Operation guide

Many features available on this TV can be accessed via the On Screen Display menu.

### Operation guide

Operation guide will help you to operate by using the remote control.

**Example: [Sound Menu]**

1. **Function select**
   - [Music] or [Speech] mode in the Sound Menu

2. **Channel Up / Down, Value change (when using the F button), Switching the TV on (press either button for about 1 second when in Standby mode)

3. **Changes the input mode**

4. **Mains power On / Off switch**
   - Use to switch the mains power.
   - If you turned the TV off during Standby mode by the remote control last time, the TV will be in Standby mode when you turn the TV on with Mains power On / Off switch.

When pressing the control panel button (1 - 4), the control panel guide appears on the right side of the screen for 3 seconds to highlight the pressed button.

5. **Remote control signal receiver**
   - Do not place any objects between the TV remote control signal receiver and remote control.

6. **C.A.T.S. (Contrast Automatic Tracking System) sensor**
   - Senses brightness to adjust picture quality when [Eco Mode] in the Picture Menu is set to [On].
   - (p. 32)

### How to use remote control

- **Move the cursor / select from a range of options / select the menu item (up and down only) / adjust levels (left and right only)**
- **Access the menu / store settings after adjustments have been made or options have been set**
- **Return to the previous menu**
- **Exit the menu system and return to the normal viewing screen**

### Auto power standby function

The TV will automatically go into Standby mode in the following conditions:

- No signal is received and no operation is performed for 30 minutes in Analogue TV mode.
- [Off Timer] is active in the Timer Menu. (p. 21)
- No operation is performed for the period selected in [Auto Standby] (p. 36).
- This function does not affect the recording of Timer Programming and Direct TV Recording.
Basic Connection

External equipment and cables shown are not supplied with this TV. Please ensure that the unit is disconnected from the mains socket before attaching or disconnecting any leads.

**Terminals**

1. CI slot (p. 50)
2. SD Card slot (p. 55)
3. USB 1 - 2 port (p. 55, 81)
4. HDMI 1 - 4 (p. 12, 81)
5. Headphone jack (p. 82)
6. ETHERNET (p. 13, 82)
7. Terrestrial terminal (see below)
8. DIGITAL AUDIO OUT (p. 81)
9. PC terminal (p. 82)
10. AV1 (SCART) (p. 12)
11. AV2 (COMPONENT / VIDEO) (p. 81, 82)

**Connections**

**Mains lead and aerial**

Insert the mains plug (supplied) firmly into place. When disconnecting the mains lead, be absolutely sure to disconnect the mains plug at the socket outlet first.

- **DVB-C, DVB-T, Analogue**
- **Mains lead**

AC 220-240 V
50 / 60 Hz
### AV devices

#### Player

- **TV**
- **HDMI cable**
- **Player**

#### DVD Recorder / VCR

- **TV**
- **Terrestrial aerial**
- **RF cable**
- **AV1 (SCART) adaptor**
- **SCART cable**
- **DVD Recorder / VCR**

#### DVD Recorder / VCR and Set top box

- **TV**
- **Terrestrial aerial**
- **RF cable**
- **HDMI cable**
- **AV1 (SCART) adaptor**
- **SCART cable**

*Supplied with this TV

---

**Note**

- Connect to the TV's AV1 for a DVD Recorder / VCR supporting Q-Link (p. 75).
- Q-Link and VIERA Link connection (p. 73, 74)
- Please also read the manual of the equipment being connected.
- Keep the TV away from electronic equipment (video equipment, etc.) or equipment with an infrared sensor. Otherwise, distortion of image / sound may occur or operation of other equipment may be interfered.
- When using a SCART or HDMI cable, use the fully wired one.
- Check the type of terminals and cable plugs are correct when connecting.
Network

To enable the network service functions (VIERA Connect, etc.), you need to connect the TV to a broadband network environment.
- If you do not have any broadband network services, please consult your retailer for assistance.
- Prepare the internet environment for wired connection or wireless connection.
- Setup of the network connection will start after the tuning (when first using the TV). ⇒ (p. 15 - 17)

### Wired connection

TV

![Wired connection diagram]

- LAN cable (Shielded)
  - Use the Shielded Twist Pair (STP) LAN cable.

### Wireless connection

TV

![Wireless connection diagram]

- Wireless LAN Adaptor and exclusive stand
  - “Optional accessories” (p. 7)
- Insert the Wireless LAN Adaptor to the stand straightly and completely.
- Connect to the USB 1 or 2 port.

### Using clamper

- Do not bundle the RF cable and mains lead together (could cause distorted image).
- Fix cables with clamplers as necessary.
- When using the optional accessory, follow the option’s assembly manual to fix cables.

### Clamper (Standard accessory)

- Attach the clamper
  - Insert the clamper in a hole
- Bundle the cables
  - Set the tip in the hooks
- To remove from the TV:
  - Keep pushing both side snaps
- To loosen:
  - Keep pushing the knob
Auto Setup

Search and store TV channels automatically.
- These steps are not necessary if the setup has been completed by your local dealer.
- Please complete connections (p. 11 - 13) and settings (if necessary) of the connected equipment before starting Auto Setup. For details of settings for the connected equipment, read the manual of the equipment.

1. Plug the TV into mains socket and switch on
   - Takes a few seconds to be displayed.
   - If the red LED shows on the TV, press the Standby On / Off switch on the remote control for about 1 second.

2. Select the language

3. Select your country
   - Depending on the country you select, select your Region or store the Child Lock-PIN number (“0000” cannot be stored) by following the on-screen instructions.

4. Select the mode to tune
   - : tune / skip tuning
   - : skip tuning

5. Select [Start Auto Setup]
   - Auto Setup will start to search for TV channels and store them.
   - The stored channels and sorted channel order vary depending on the country, area, broadcasting system and conditions of signal reception.

Auto Setup screen varies depending on the country you select.
1 [DVB-C Network Settings]
- Depending on the country you select, select your cable provider beforehand following the on-screen instructions.

![Auto Setup]

Normally set [Frequency] and [Network ID] to [Auto].
If [Auto] is not displayed or if necessary, enter [Frequency] and [Network ID] specified by your cable provider with numeric buttons.

2 [DVB-C Auto Setup]

![DVB-C Auto Setup]

Depending on the country you select, the channel selection screen will be displayed after DVB-T Auto Setup if multiple channels have the same logical channel number. Select your preferred channel or exit the screen for automatic selections.

3 [DVB-T Auto Setup]

![DVB-T Auto Setup]

4 [Analogue Auto Setup]

![Analogue Auto Setup]

5 Preset Download
If Q-Link, VIERA Link or similar technology (p. 75, 76) compatible recorder is connected, channel, language and country / region settings are automatically downloaded to the recorder.

![Preset Download]

If downloading has failed, you can download later through the Setup Menu. ![Download] (p. 37)

Setup the network connection
Setup the network connection to enable the network service functions such as VIERA Connect, etc. (p. 18, 63).
- Please note that this TV does not support wireless public access points.
- Ensure the network connections (p. 13) and network environment are completed before starting setup.

Select the network type

![Network Setup]

[Wired] ⇒ “Wired connection” (p. 13)
[Wireless] ⇒ “Wireless connection” (p. 13)

1. Select [Auto]

![Acquire IP Address]

Automatically setup is done and the test of the network connection starts.
To set manually, select [Manual] and set each item.
For details (p. 66)
Access points found automatically are listed.

1. Select your desired access point

<table>
<thead>
<tr>
<th>Available Wireless Networks</th>
</tr>
</thead>
<tbody>
<tr>
<td>No.</td>
</tr>
<tr>
<td>-----</td>
</tr>
<tr>
<td>1</td>
</tr>
<tr>
<td>2</td>
</tr>
<tr>
<td>3</td>
</tr>
</tbody>
</table>

- For WPS(Push button) (p. 17) (red)
- Encrypted access point

- To search access points again (blue)
- For the information of the highlighted access point (yellow)
- To set manually (p. 68) (yellow)

2. Access the encryption key input mode

Encryption Key Setting
Connection will be made with the following settings:
- Network Name(SSID) : Access Point A
- Security type : WPA-PSK
- Encryption type : TKIP
Please input the encryption key.

Encryption key

3. Enter the encryption key of the access point

- You can set characters by using numeric buttons.

4. After the access point setting is finished, perform the connection test

- : succeeded
  The test is successful and the TV is connected to the network.
- : failed
  Check the settings and connections. And then select Retry.
  - To set manually, select [Manual] and set each item.
    For details (p. 66)

5. Go to the next step 7

(Press twice)
Auto Setup

1. Press the WPS button on the access point until the light flashes
2. Connect the TV with the access point

- Ensure that your access point supports WPS for this setup.
- WPS: Wi-Fi Protected Setup™
- If the connection has failed, check the settings and positions of your access point. And then, follow the on-screen instructions.

3. After the access point setting is finished, perform the connection test

Connection Test
- Check wireless network connection.
- Check acquired IP address.
- Check for devices using same IP address.
- Check gateway connection.
- Check server connection.

4. Go to the next step

Select [Home]
Select [Home] viewing environment to use in your home environment.

Please select your viewing environment.
Home Shop

- [Shop] viewing environment (for shop display only)
- [Shop] viewing environment is the demonstration mode to explain main features of this TV.

Select [Home] viewing environment to use in your home environment.
- You can return to viewing environment selection screen at the stage of Shop confirmation screen.

1. Return to viewing environment selection screen

Shop
You have selected shop mode

2. Select [Home]

Please select your viewing environment.
Home Shop

To change viewing environment later on, you will need to initialise all settings by accessing Shipping Condition. ⇒ [Shipping Condition] (p. 51)

Auto Setup is now complete and your TV is ready for viewing.
If tuning has failed, check the connection of the RF cable, and then, follow the on-screen instructions.

Note
- To check the channel list ⇒ “Using TV Guide” (p. 23)
- To edit or hide (skip) channels ⇒ “Tuning and Editing Channels” (p. 42 - 45)
- To retune all channels ⇒ [Auto Setup] (p. 40 - 41)
- To add the available TV mode later ⇒ [Add TV Signal] (p. 37)
- To initialise all settings ⇒ [Shipping Condition] (p. 51)
Using “VIERA Connect”

VIERA Connect is a gateway to the internet services unique to Panasonic. VIERA Connect allows you to access some specific websites supported by Panasonic, and enjoy internet contents such as videos, games, communication tools, etc. from VIERA Connect home screen.

* This TV does not support full web browser function and some features of the websites may not be available.

1. Turn power on
   - Press for about 1 second.
   - Mains power On / Off switch should be on. (p. 10)

2. Access VIERA Connect
   - Every time you turn on the TV, VIERA Connect introduction banner appears. The banner is subject to change.

   Example: VIERA Connect home screen
   - To go to the next level, select [MORE].
   - To back to the previous level, select [BACK].
   - To return to VIERA Connect home screen

* Video communication (for example Skype™) requires an exclusive Communication Camera TY-CC20W.
  "Optional accessories” (p. 7)
  For details, read the manual of the Communication Camera.

* You can connect a keyboard and a gamepad via USB port for character input and playing games in VIERA Connect. You can also operate the TV with a keyboard or a gamepad other than VIERA Connect features.
  For more information "USB connection” (p. 89)

**Note**
- If you cannot access VIERA Connect, check the network connections (p. 13) and settings (p. 15 - 17).
- For more information of VIERA Connect (p. 72)
Watching TV

1 Turn power on
- Press for about 1 second.
- Mains power On / Off switch should be on. (p. 10)

VIERA Connect introduction banner appears
Every time you turn on the TV, this banner appears at the bottom of the screen.
You can access to VIERA Connect easily and enjoy the various contents. (p. 18)
- To remove this banner, leave for about 5 seconds or press any buttons (except the buttons to access VIERA Connect).
- To set this banner display off ➔ [VIERA Connect Banner] (p. 38)
- The banner is subject to change.

2 Select the mode
TV Selection
DVB-C
DVB-T
Analogue

- The selectable modes vary depending on the stored channels (p. 14).
- You can also select the mode pressing the TV button repeatedly on the remote control or the TV (p. 10).
- If [TV Selection] menu is not displayed, press the TV button to switch the mode.

3 Select a channel

- To select a more than two-digit channel position number, e.g. 399
- To sort channel names in alphabetical order (red)
- To change the category (blue)

To select from the Channel List

- All DVB-T Channels
- Sorting 123...
- 6 Cartoon Nwk
- 7 BBC Radio Wales
- 8 BBC Radio Cymru
- 1 BBC ONE Wales
- 2 BBC THREE
- 3 BBCi
- 4 CBBC Channel

To select a channel using Information banner (p. 20)
1 Display Information banner if it is not displayed
2 While the banner is displayed, select the channel

To select a channel using TV Guide (p. 23)
1 Display TV Guide
2 Select the current programme or channel
3 Select [View] (DVB)

- The postcode entry or update may be required depending on the country you select (p. 14). Follow the on-screen instructions.

Note
- To watch pay-TV ➔ “Using Common Interface” (p. 50)

Sets the teletext language font ➞ (p. 38)

[Teletext Language] (DVB)
Selects between alternative language for teletext (if available)

Off Timer

Turn the TV to Standby mode automatically after a fixed period

Press the button repeatedly until you reach the desired time.
- To cancel, set to [Off] or turn the TV off.
- To confirm the remaining time ➞ “Display Information banner” (p. 20)
- When the remaining time is within 3 minutes, the remaining time will flash on the screen.

You can also set the [Off Timer] via the [Timer] menu

1 Display the menu

2 Select [Timer]

3 Select [Off Timer] and set the time in 15-minute increments
Aspect

Change the aspect ratio (image size)

Enjoy viewing the image at its optimum size and aspect. Programmes usually contain an “Aspect Control Signal” (Widescreen signal, etc.), and the TV will choose the aspect ratio automatically according to the “Aspect Control Signal” (p. 84).

To change the aspect ratio manually

1 Display Aspect Selection list

2 While the list is displayed, select the mode

- You can also change the mode only using the ASPECT button.

(Press repeatedly until you reach the desired mode.)

[Auto]
The best ratio is chosen and the image expanded to fill the screen. For details ➔(p. 84)

[16:9]
Directly displays the image at 16:9 without distortion (anamorphic).

[14:9]
Displays the image at the standard 14:9 without distortion.

[Just]
Displays a 4:3 image full-screen. Stretching is only noticeable at the left and right edges.

[4:3]
Displays the image at the standard 4:3 without distortion.

[4:3 Full]
Displays a 4:3 image enlarged horizontally to fit the screen.

[Zoom1]
Displays a 16:9 letterbox or 4:3 image without distortion.

[Zoom2]
Displays a 16:9 letterbox (anamorphic) image full-screen without distortion.

[Zoom3]
Displays a 2.35:1 letterbox (anamorphic) image full-screen without distortion. At 16:9, displays the image at its maximum (with slight enlargement).

Note
- Only [16:9] and [4:3] are available in PC input mode.
- Aspect mode can be memorised separately for SD (Standard definition) and HD (High definition) signals.

Last view

Switch to previously viewed channel or input mode easily

- Press again to return to the current view.

Note
- Switching channel is not available while the recording of Timer Programming or Direct TV Recording is in progress.
- Watching less than 10 seconds is not regarded as the previously viewed channel or input mode.
Using TV Guide

TV Guide - Electronic Programme Guide (EPG) provides an on-screen listing of the programmes currently broadcast and the forthcoming broadcasts over the next seven days (depending on the broadcasters).

- This function varies depending on the country you select (p. 14).
- The postcode entry or update may be required to use the GUIDE Plus+ system depending on the country you select.
  "View advertisement" (p. 24)
- DVB-T and Analogue channels are displayed on the same TV Guide screen. [D] and [A] may be displayed to distinguish DVB-T and Analogue channels. There will be no programme listings for Analogue channels.
- When this TV is turned on for the first time, or the TV is switched off for more than a week, it may take some time before TV Guide is completely shown.

1 Select the mode
(p. 19)

2 View TV Guide

- Press again to change the layout ([Landscape] / [Portrait]).
- View [Landscape] to see several channels.
- View [Portrait] to see one channel by time.

Example: [Landscape]

Example: [Portrait]

Depending on the country you select, you can select the TV Guide type
[Default Guide] (p. 38)
If you select [Channel List], the channel list will appear when the GUIDE button is pressed.

1 Select the current programme or channel

2 Select [View] (DVB)

- To use Timer Programming (p. 25)

OPTION
- To display the latest advertisement
  - [Update] in [GUIDE Plus+ Settings] (p. 39)

To change advertisements

To return to TV Guide

Note
- To update the information continuously, the TV must be left in Standby mode.
Timer Programming (DVB)

The Timer Programming menu allows you to choose programmes that you want to remind watching or record to the external recorder. At the correct time, the TV will tune to the correct channel even if the TV is in Standby mode.

1 Select the forthcoming programme

- select
- set

LED will turn to orange if Timer Programming is set.
(Orange LED will flash if the recording of Timer Programming is in progress.)
⇒ “Indicator / Control panel” (p. 10)

2 Select the function ([Ext Rec.] or [Reminder])

(Timer Programming screen)

- select
- store

[Ext Rec.]/[Reminder]
⇒ “Set timer programming event details” (p. 47)

■ To check / change / cancel a timer programming event
⇒ “Timer Programming” (p. 46 - 48)

■ To return to TV Guide

■ If you select the current programme

A confirmation screen asking whether you want to watch or record the programme appears.
Select [Timer Programming] and set [Ext Rec.] to record from the time you finish the timer programming event setting.

Note
- This function is not available in Analogue mode.
- Timer Programming only works reliably if correct time information is received via the signal from the broadcaster or service provider.
- No other channel can be selected while the recording of Timer Programming is in progress.
- When recording programmes to the external recorder, be sure to make the proper settings on the recorder connected to the TV.

If a compatible recorder with Q-Link, VIERA Link or similar technologies is connected to the TV (p. 75, 76) and [Link Settings] (p. 36) are completed, no setting of the recorder is required. Also read the manual of the recorder.
Viewing Teletext

Teletext services are the text information provided by the broadcasters. The features may vary depending on the broadcasters.

What is FLOF (FASTEXT) mode?
In FLOF mode, four differently coloured subjects are situated at the bottom of the screen. To access more information about one of these subjects, press the appropriate coloured button. This facility enables fast access to information on the subjects shown.

What is TOP mode? (in case of TOP text broadcasting)
TOP is a particular improvement of the standard teletext service that results in an easier search and effective guide.
- Fast overview of the teletext information available
- Easy to use step-by-step selection of the topical subject
- Page status information at the bottom of the screen
- Available page up / down (red) (green)
- To select among subject blocks (blue)
- To select next subject within the subject block (After the last subject, it moves to the next subject block.) (yellow)

What is List mode?
In List mode, four differently coloured page numbers are situated at the bottom of the screen. Each of these numbers can be altered and stored in the TV’s memory. "Store frequently viewed pages" (p. 27)

To change mode ➔ [Teletext] (p. 38)

(You cannot change the channel.)

The news page provides a function that indicates arrival of the latest news (“News Flash”).
Watching External Inputs

Connect the external equipment (VCRs, DVD equipment, etc.) and you can watch through the input.

- To connect the equipment ➔ (p. 11 - 13, 81 - 82)
- The remote control is capable of operating the contents or external equipment. ➔ (p. 29)

1. **Turn the TV on**

   ![Remote Control](image)

   **When connecting with SCART (p. 12)**

   Receives input signals automatically when playback starts
   - Input signals are automatically identified by the SCART (pin 8) terminal.
   - This function is also available for HDMI connections (p. 89).

   **If input mode is not switched automatically**

   Perform 2 and 3
   - Check the setup of the equipment.

2. **Display the input selection menu**

   ![Input Selection Menu](image)

3. **Select the input mode connected to the equipment**

   - You can also select the input using the AV button on the remote control or the TV (except [SD Card/USB]).
     Press the button repeatedly until the desired input is selected.
   - To switch between [COMPONENT] and [VIDEO] in [AV2], move the indicator by pressing left and right cursor button.
   - [SD Card/USB]: Switches to Media Player. ➔ “Using Media Player” (p. 55)
   - You can label or skip each input mode (except [SD Card/USB]). ➔ “Input Labels” (p. 38)

   Skipped inputs will not be displayed when the AV button is pressed.

4. **View**

   ![View Mode](image)

   Displays the selected mode

**Note**

- If the external equipment has an aspect adjustment function, set it to “16:9”.
- For details, read the manual of the equipment or ask your local dealer.
### Operating the contents or equipment with the TV remote control

You can operate the contents in Media Player / media servers, recording functions or the connected equipment with the below buttons of this TV remote control.

<table>
<thead>
<tr>
<th>Button</th>

### How to change the code

Each type of the Panasonic equipment has its own remote control code. To use in some features of this TV, you have to select the code “73”. Change to the appropriate code according to the equipment or features below.

**Press and hold** ![Standby](#) **during the following operations**

Enter the appropriate code, see table below

<table>
<thead>
<tr>
<th>Type of the equipment, features</th>
<th>Code</th>
</tr>
</thead>
<tbody>
<tr>
<td>DVD Recorder, DVD Player, Blu-ray Disc Player</td>
<td>70 (default)</td>
</tr>
<tr>
<td>Player theatre, Blu-ray Disc theatre</td>
<td>71</td>
</tr>
<tr>
<td>VCR</td>
<td>72</td>
</tr>
<tr>
<td>Using in Media Player (p. 56), DLNA features (p. 69) or Direct TV Recording (p. 75, 77) Equipment using in VIERA Link (p. 78)</td>
<td>73</td>
</tr>
</tbody>
</table>

**Note**

* Confirm if the remote control works correctly after changing the code.
* The codes may be reset to default values if batteries are replaced.
* Some operations may not be possible on some equipment models.
How to Use VIERA TOOLS

You can access some special features easily by using the VIERA TOOLS function.

1. Display icons of the feature

2. Select a feature

To return to TV
EXIT or

Follow the operations of each feature

- [VIERA Link] (p. 76 - 80)
- [Photo]* (p. 57)
- [Video]* (p. 60)
- [Music]* (p. 62)
- [VIERA Connect] (p. 18, 72)
- [Media Server]* (p. 69)

* When two or more available devices are connected, a selection screen will be displayed. Please select the correct description and access.

Note

- If the selected feature is not available, the demonstration to explain how to use it can be displayed. Press the OK button to view the demonstration after selecting the unavailable feature.
How to Use Menu Functions

Various menus allow you to make settings for the picture, sound, and other functions.

1 Display the menu
   - Displays the functions that can be set (varies according to the input signal).

2 Select the menu
   - Displays the menu
   - Access

3 Select the item
   - Choose from among alternatives
   - Colour Balance
     - Cool
     - Normal
     - Warm
   - Adjust using the slide bar
     - Sharpness
     - Moved
   - Go to the next screen
     - Child Lock
     - Access
     - Displays the next screen

■ Enter characters by free input menu
   You can enter names or numbers freely for some items.

■ To return to TV at any time
   - EXIT

■ To return to the previous screen
   - BACK/RETURN

■ To change menu pages
   - up
   - down

■ Choose from among alternatives
   - Colour Balance
     - Cool
     - Normal
     - Warm

■ Adjust using the slide bar
   - Sharpness
     - Moved
   - Go to the next screen
     - Child Lock
     - Access
     - Displays the next screen

■ Enter characters by free input menu
   You can enter names or numbers freely for some items.

■ To reset the settings
   - Picture or sound settings only
     - [Reset to Defaults] in the Picture Menu (p. 33) or Sound Menu (p. 35)
   - Picture and sound settings together
     - N
     - (Also volume level and aspect mode are reset)
   - To initialise all settings
     - [Shipping Condition] (p. 39)

You can set characters by using numeric buttons. ⇒ “Characters table for numeric buttons” (p. 91)
### Viewing Mode

**Selects your favourite picture mode for each input**

- **[Dynamic]**: Improves contrast and sharpness for viewing in a bright room.
- **[Normal]**: Normal use for viewing in a normal lighting condition.
- **[Cinema]**: Improves the performance of contrast, black and colour reproduction for watching movies in a darkened room.
- **[True Cinema]**: Reproduces the original image quality precisely without any revision.
- **[Game]**: Provides suitable images for fast response signal when playing games.
  - Not valid on TV mode
  - To display a continuous record of time spent using Game mode ➤ [Playing Time Display] (p. 38)

In each Viewing Mode, [Contrast], [Brightness], [Colour], [Sharpness], [Tint], [Colour Balance], [Vivid Colour], [Eco Mode], [P-NR] and [3D-COMB] can be adjusted and stored for each input. Additionally, you can adjust the detailed settings when [Advance] in the Setup Menu is set to [On]. ➤ (p. 39)

### Contrast, Brightness, Colour, Sharpness

Adjusts the levels of these options according to your personal preference

### Tint

Adjusts the picture hue to suit your taste
  - For NTSC signal reception

### Colour Balance

Sets the overall colour tone of the picture [Cool] / [Normal] / [Warm]
  - Not valid when [Viewing Mode] is set to [True Cinema]

### Vivid Colour

Automatically adjusts colours to vivid ones [Off] / [On]
  - Not valid on PC mode

### Eco Mode

Automatic Brightness Control function
Adjusts picture settings automatically depending on ambient lighting conditions [Off] / [On]

### P-NR

Picture Noise Reduction
  - Not valid on PC mode or when [Viewing Mode] is set to [Game]

### 3D-COMB

Makes still or slow moving pictures more vivid [Off] / [On]
  - Occasionally, while viewing still or slow moving pictures, colour patterning may be seen. Set to [On] to display sharper and more accurate colours.
  - For PAL / NTSC signal reception in TV mode or from composite

### Menu Functions

<table>
<thead>
<tr>
<th>Menu Item</th>
<th>Adjustments / Configurations (alternatives)</th>
</tr>
</thead>
</table>
| **Audio Preference** | Selects the initial setting for audio tracks  
  - Selectable options vary depending on the country you select.  
  - [Auto]: Automatically selects the audio tracks if programme has more than two tracks. The priority is given in the following order - Dolby Digital Plus, HE-AAC, Dolby Digital, MPEG.  
  - [Multichannel]: The priority is given to multi-channel audio track.  
  - [Stereo]: The priority is given to stereo (2ch) audio track.  
  - [MPEG]: The priority is given to MPEG.  
  - Dolby Digital Plus and Dolby Digital are the methods of coding digital signals developed by Dolby Laboratories. Apart from stereo (2ch) audio, these signals can be multi-channel audio.  
  - HE-AAC is a perceptual coding method used to compress digital audio for efficient storage and transmission.  
  - MPEG is an audio compression method that compresses audio to the smaller size without any considerable loss of audio quality.  
  - Dolby Digital Plus and HE-AAC are the technologies for HD (High definition) programmes.  
  - For DVB mode  |
| **Audio Type** | Narration settings for visually impaired users (only available in some countries)  
* [Standard] / [Visual Impaired]  
  - Set to [Visual Impaired] to activate the narration sound track when available on the broadcast.  
  - For DVB mode  |
| **SPDIF Selection** | SPDF: A standard audio transfer file format  
Selects the initial setting for digital audio output signal from DIGITAL AUDIO OUT and HDMI2 (ARC function) terminals [Auto] / [PCM]  
* [Auto]: Dolby Digital Plus, Dolby Digital and HE-AAC multi-channel are output as Dolby Digital Bitstream. MPEG is output as PCM.  
* [PCM]: Digital output signal is fixed to PCM.  
  - For DVB mode or video contents of Media Player / Network services (p. 60, 70)  
  - ARC (Audio Return Channel): A function of digital audio output using HDMI cable  |
| **HDMI1 / 2 / 3 / 4 Input** | Selects to fit the input signal [Digital] / [Analogue] (p. 89)  
* [Digital]: When sound is carried via the HDMI cable connection  
* [Analogue]: When sound is not carried via the HDMI-DVI adaptor cable connection  
  - For HDMI input  |
| **SPDIF Delay** | Adjusts the delay time of the sound output from DIGITAL AUDIO OUT and HDMI2 (ARC function) terminals if the sound does not synchronise the image  
  - For DVB mode  |
| **Reset to Defaults** | Press the OK button to reset the current Sound Mode, [Balance], [Headphone Volume] and [Surround] to the default settings  |
| **Network** | Sets the network setting to use in your network environment (p. 66, 67)  
Sets to control the TV with the devices connected to the network (p. 65)  |

|      | VIERA Link | Sets to use VIERA Link functions [Off] / [On] (p. 76) |
|      | HDMI Content Type | Automatically adjusts the picture settings according to the received HDMI content via HDMI cable [Off] / [Auto]  
* This function is available if the connected equipment supports HDMI Content Type.  
* The content type information will be displayed for several seconds when this function works. |
|      | AV1 out | Chooses the signal to be transmitted from the TV to Q-Link [TV] / [AV2] / [Monitor]  
[Monitor]: Image displayed on screen  
* Component and HDMI signals cannot be output. |
|      | Power on Link | Sets to use Power on Link function [Off] / [On] (p. 75, 76) |
|      | Power off Link | Sets to use Power off Link function [Off] / [On] (p. 75, 76) |
|      | Standby Power Save | Controls the connected equipment to reduce power consumption in Standby [Off] / [On] (p. 77)  
* This function is available when [VIERA Link] is set to [On] and [Power off Link] is set to [On]. |
## How to Use Menu Functions

### Setup

| Menu       | Item                           | Adjustments / Configurations (alternatives)                                                                                                                                                                                                 |
|------------|-------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------
| **Link Settings** |                               |                                                                                                                                  |
|            | Intelligent Auto Standby      | Makes non-watched or non-used connected equipment go into Standby mode to reduce the power consumption [Off] / [On (With reminder)] / [On (No reminder)] (p. 77)  
* This function is available when [VIERA Link] is set to [On]. |
| Download   |                               | Downloads channel, language and country / region settings to Q-Link or VIERA Link compatible equipment connected to the TV  
* DVB-C channel setting cannot be downloaded. |
| Child Lock |                               | Applies access control for channels or inputs to prevent unwanted access (p. 49)                                                                                                                |
| Back       |                               |                                                                                                                                  |
| **Tuning Menu** |                               |                                                                                                                                  |
|            | Favourites Edit               | Creates a list of favourite channels (p. 42)  
* Not valid on Analogue mode                                                                 |
|            | Channel List                  | Skips the unwanted channels or edits channels (p. 43)                                                                                                                                  |
|            | Auto Setup                    | Automatically searches for the receivable channels (p. 40 - 41)                                                                                                                         |
|            | Manual Tuning                 | Searches for the channels manually (p. 44)                                                                                                                                                |
|            | Update Channel List           | Updates the channel list while keeping your settings (p. 45)  
* For DVB mode                                                                 |
|            | Favourite Network             | Selects your favourite network for each broadcasters (only available in some countries)  
* For DVB mode                                                                 |
|            | New Channel Message           | Selects whether to give a notification message when a new channel is found [Off] / [On] (p. 45)  
* For DVB mode                                                                 |
|            | Service Replacement           | Set to [On] to enable a message to switch to the available service (only available in some countries) [Off] / [On]  
* For DVB-C mode                                                                 |
|            | Signal Condition              | Checks the signal condition (p. 45)  
* Not valid on Analogue mode                                                                 |
|            | Attenuator                    | Automatically reduces the DVB-C signal to avoid the interference [Off] / [On]  
* If the DVB-C signal is too strong, the interference may occur. In this case set to [On] to reduce the signal automatically.                                                                 |
|            | Add TV Signal                 | Adds the TV mode  
* This function is available if you skip any modes to tune in [Auto Setup] for first using the TV.  
* To operate, refer to the “Auto Setup” operations for first using the TV (p. 14). |

*The settings in [Tuning Menu] are applicable only for the selected TV mode. The menu name varies depending on the TV mode. ([DVB-C Tuning Menu] / [DVB-T Tuning Menu] / [Analogue Tuning Menu])

* A different menu will be displayed when [Advance] in the Setup Menu is set to [On] or in the mode of PC input, Media Player or network service operations. (p. 53, 54, 56 - 62, 69 - 72)

* Only available items can be selected.
Retuning from Setup Menu

Automatically retune the channels received in the area.
- This function is available if channel tuning is already performed.
- Only the selected mode is retuned. All the previous tuning settings are erased.
- If Child Lock PIN number (p. 49) has been set, the PIN number is required.
- If tuning has not been done completely ⇒ [Manual Tuning] (p. 44)

DVB-C, DVB-T, Analogue channels

1. Select DVB-C, DVB-T or Analogue
   ⇒ (p. 19)

2. Display the menu and select [Setup]

3. Select [DVB-C Tuning Menu], [DVB-T Tuning Menu] or [Analogue Tuning Menu]

4. Select [Auto Setup]

5. Set the Auto Setup settings (DVB-C)

   - [Scan Mode]
     [Full]: Scans the whole frequency range.
     [Quick]: Scans the suitable frequency in your country.
   - Normally set [Frequency], [Symbol Rate] and [Network ID] to [Auto].
   - If [Auto] is not displayed or if necessary, enter the value specified by your cable provider with numeric buttons.

   After settings, select [Start scan].
Start Auto Setup (Settings are made automatically)

DVB-C:

DVB-C Auto Setup

All DVB-C tuning data will be erased

DVB-T:

DVB-T Auto Setup

All DVB-T tuning data will be erased

Analogue:

Analogue Auto Setup

All analogue tuning data will be erased

The channel, language and country/region settings are downloaded to Q-Link or VIERA Link compatible equipment connected to the TV.

When the operation is completed, the channel at the lowest position will be displayed.

Auto setup using the buttons on the TV

For Auto Setup, using the buttons on the TV (p. 10)

1 Press the F button repeatedly until [Auto Setup] appears

2 Access [Auto Setup]

3 Set the search mode and scan mode (DVB-C)

4 Start [Auto Setup]

To return to TV

Control panel OSD appears when pressing the control panel button.
Tuning and Editing Channels

You can retune channels or make your favourite channel lists, skip unwanted channels, etc.

1. Select the mode

   ➪ (p. 19)

2. Display the menu and select [Setup]

3. Select [DVB-C Tuning Menu], [DVB-T Tuning Menu] or [Analogue Tuning Menu]

4. Select one of the following functions

   - The displayed item depends on the selected mode.
   - The function items vary depending on the country you select (p. 14).
   - [Auto Setup] ➪ “Retuning from Setup Menu” (p. 40 - 41)

List favourite DVB channels [Favourites Edit]

Create your favourite channel lists from various broadcasters (up to 4: [Favourites] 1 to 4).
The DVB Favourites lists are available from “Category” in the Information banner (p. 20) and the TV Guide screen (p. 23).

1. Select a channel to list (encrypted channel)

   Example: DVB-C

   - To sort channel names in alphabetical order
     (red)
   - To display other Favourites
     (green)
   - To change the category
     (blue)

2. Add it to the Favourites list

   Example: DVB-C

   - To add continuous block of channels to the list at once
     (yellow) ➪ (make the block)
   - To add all channels to the list
     (yellow) ➪ (green)
To edit Favourites list
While the cursor is in the Favourites field to edit
- To move the channel
  (green) 
  Select the new position 
or 
  (green) 
  Store
- To delete the channel
  (green)
- To delete all channels
  (yellow)
- To name the Favourites
  (red) 
  Set characters (maximum 10 characters)
  (red) 
  User input 
  Name 
  (red) 
  Store
- To use numeric buttons
  (p. 91)

Skip unwanted channels, Edit Channels [Channel List]
You can hide (skip) unwanted channels.
The hidden channels cannot be displayed except in this function.
Select a channel and reveal / hide
Example: DVB-C

Note
- If a VCR is connected only with the RF cable in Analogue mode, edit [VCR].
Set DVB channel manually [Manual Tuning]

Normally use [Auto Setup] or [Update Channel List] to retune DVB channels. If tuning has not been done completely or for adjusting the direction of the aerial, use this function.

All channels found will be added to the Channel List.

DVB-C:
1. Enter the frequency

<table>
<thead>
<tr>
<th>DVB-C Manual Tuning</th>
</tr>
</thead>
<tbody>
<tr>
<td>Frequency</td>
</tr>
<tr>
<td>Symbol Rate</td>
</tr>
<tr>
<td>Service ID</td>
</tr>
<tr>
<td>Signal Quality</td>
</tr>
<tr>
<td>Signal Strength</td>
</tr>
<tr>
<td>No.</td>
</tr>
</tbody>
</table>

2. Select [Start scan]

- Normally set [Symbol Rate] and [Service ID] to [Auto].

DVB-T:
1. Adjust frequency for each channel

<table>
<thead>
<tr>
<th>DVB-T Manual Tuning</th>
</tr>
</thead>
<tbody>
<tr>
<td>Frequency</td>
</tr>
<tr>
<td>Signal Quality</td>
</tr>
<tr>
<td>Signal Strength</td>
</tr>
<tr>
<td>No.</td>
</tr>
</tbody>
</table>

2. Search

- Set where the level of [Signal Quality] becomes the maximum.

Set Analogue channel manually [Manual Tuning]

[Fine Tuning]:
Use to make small adjustments to the tuning of an individual programme (affected by weather conditions, etc.).

[Manual Tuning]:
Set Analogue channel manually after Auto Setup.
- Set [Sound System] and [Colour System], and then perform this function. Normally set [Colour System] to [Auto].
- If a VCR is connected only with the RF cable, select channel position [0].

<table>

<td></td>
</tr>
</tbody>
</table>

1. Select the channel position

2. Select the channel

3. Search

4. Select [Store]
Update DVB channel automatically [Update Channel List]

You can add new channels, delete removed channels, update channel name and position automatically to the channel list.

- The channel list is updated while keeping your settings in [Favourites Edit], [Channel List], [Child Lock], etc.
- Depending on the signal condition, the update may not work properly.

Display a notification message [New Channel Message] (DVB)

Selects whether to give a notification message when a new DVB channel is found.

- Selecting OK will perform [Update Channel List].

Check DVB signal [Signal Condition]

Selects a channel and checks the DVB signal condition.

A good Signal Strength is not an indication of suitable signal for DVB reception.

- Green bar: Good
- Yellow bar: Poor
- Red bar: Bad (Check the Terrestrial aerial or cable)

Example:
Timer Programming

Timer Programming from Menu

The Timer Programming menu allows you to choose programmes that you want to remind watching or record to the external recorder. At the correct time, the TV will tune to the correct channel even if the TV is in Standby mode. TV Guide may also be used to set timer programming event (p. 25).
- This function is not available in Analogue mode.
- Timer Programming can store up to 15 events.
- Timer Programming only works reliably if correct time information is received via the signal from the broadcaster or service provider.
- For recording using Timer Programming, the TV must be either on or in Standby. For reminders to be displayed, the TV must be on.
- No other channel can be selected while the recording of Timer Programming is in progress.
- Recording an encrypted (copy-protected) programme may not be possible.
- When recording programmes to the external recorder, be sure to make the proper settings on the recorder connected to the TV. If a recorder compatible with Q-Link, VIERA Link or similar technologies is connected to the TV (p. 75, 76) and [Link Settings] (p. 36) are completed, no setting of the recorder is required. Also read the manual of the recorder.
- If the recorder is not compatible with Q-Link, VIERA Link or similar technologies, make timer programming of the recorder. For preparations of a recorder, read the manual of the recorder.
- Recording to the external equipment via SCART is always in standard definition (composite video), even if the original programme is in high definition.
- 2 minutes before the starting time, a reminder message appears if you are watching TV.
  - To remove the message and start the programming
  - To cancel the programming

1. Select DVB-C or DVB-T
   ⇒ (p. 19)

2. Display the menu and select [Timer]

3. Select [Timer Programming]
Set timer programming event details

1 Start making the settings

2 Select the function ([Ext Rec.] or [Reminder])

[Ext Rec.]:
Records the programme to the external recorder. When the start time comes, the channel will be switched automatically and the video and audio signals will be output. 2 minutes before the starting time, a reminder message appears if you are watching TV.

[Reminder]:
Reminds you to watch the programme. When you are watching TV, a reminder message appears 2 minutes before the start time. Press the OK button to switch to the programmed channel.

3 Set the channel, date and time (repeat the operations as below)
Set items in the order of 1 to 4.

* 1, 3 and 4 can also be entered with numeric buttons.

D 7 BBC7 17:00 18:30
D 1 BBC1 STTL 18:00 20:00
C 3 ITV1

2 Date
   one day ahead
daily or weekly (press repeatedly)
   * [Daily Sun-Sat]: Sunday to Saturday
   * [Daily Mon-Sat]: Monday to Saturday
   * [Daily Mon-Fri]: Monday to Friday
   * [Weekly Sat/Fri/Thu/Wed/Tue/Mon/Sun]: Same time on the same day every week

3 Starting time
4 Ending time

4 Store
To edit a timer programming event
Select the event

- To change a timer programming event
  ![Selector button] ➔ Correct as necessary (p. 47)

- To delete a timer programming event
  ![Red button] ➔

- To record with subtitles (if available)
  ![Yellow button] ➔ Each time pressed:
  auto ➔ off

- To cancel a timer programming event temporarily
  ![Blue button] ➔ Each time pressed:
  cancel ➔ stop cancelling

To unlock the tuner and stop recording

![Guide button] ➔ EXIT

Note
- Check that the LED is orange. If not, timer programming events are not active or not stored.
- Timer Programming reminder messages will remain displayed until one of the following occurs:
  - You press the OK button to view the programme or the EXIT button to cancel the reminder.
  - The timer programming event that the reminder is set for ends.
- “!” identifies that two or more timer programming events are overlapped. [Ext Rec.] is given priority over [Reminder].
  As for the overlapped recording events, the first event starts and finishes as programmed. The next event can then
  start.
- The recording of Timer Programming will automatically change to the programmed channel a few seconds before the
  start time.
- To stop recording the timer programming event, it may be necessary to stop the recorder manually.
- The recording of Timer Programming will be performed even if the TV is in [Pause Live TV] recording (p. 78). In this
  case, [Pause Live TV] recording will be cancelled.
Child Lock

You can lock specific channels / AV input terminals and control who watches them. When the locked channel / input is selected, a message appears. Enter the PIN number to watch.

1 Display the menu and select [Setup]

2 Select [Child Lock]

Control channel audience [Child Lock]

1 Enter the PIN number (4 digits)

2 Select [Child Lock List]

3 Select the channel / input to be locked

- To cancel
  Select the locked channel / input

- To change the PIN number
  1. Select [Change PIN]
  2. Enter a new PIN number twice

- To set Parental Rating
  To watch the DVB programme that has the rating information over the selected age, enter the PIN number to watch (depending on the broadcaster).
  Select [Parental Rating] and set an age for the restriction of programmes.

Note

- Setting [Shipping Condition] (p. 51) erases the PIN number and all settings.
Using Common Interface

The Common Interface Module menu provides access to software contained on Common Interface (CI) Modules.

- This function may not be available in some countries or regions.
- Video and audio signals may not be output depending on broadcasts or services.

Although CI module may enable you to view some services, this TV does not guarantee all services (e.g. encrypted pay-TV channels).

Please use only the approved CI module by the broadcaster.
Consult your local Panasonic dealer or broadcasters for more information and conditions of the services.

**Caution**
- Turn off Mains power On / Off switch whenever inserting or removing the CI module.
- If a view card and a card reader come as a set, first insert the card reader, then insert the view card into the card reader.
- Insert the module in the correct direction.
- Remove the CI module from the TV when placing the TV facing upward. This may cause damages to the CI module and CI slot.

**Insert the CI module (optional)**
- The features that appear on screen are dependent on the contents of the selected CI module.
- Normally encrypted channels will appear. Follow the on-screen instructions.
- If encrypted channel does not appear, perform below.
- For more details, read the manual of the CI module, or check with the broadcaster.

### 1 Select DVB-C or DVB-T

⇒ (p. 19)

### 2 Display the menu and select [Setup]

### 3 Select [Common Interface]

### 4 Access Common Interface and follow the on-screen instructions

*On-screen instructions may not correspond to the remote control buttons.*
Shipping Condition

Resets the TV to its original condition, i.e. no channels tuned in. All settings are reset (channels, picture, sound settings, etc.).

* To retune TV channels only, e.g. after moving house * "Retuning from Setup Menu" (p. 40 - 41)

**Setup**

1. Display the menu and select [Setup]
2. Select [System Menu]
3. Select [Shipping Condition]

**Restore Settings [Shipping Condition]**

1. Check the message and initialise
2. Follow the on-screen instructions

**Shipping Condition**

- All tuning data will be erased
- Are you sure?
- Are you sure?

- (Confirm)
- (Confirm)
- (Start [Shipping Condition])

Reset to Factory Shipping Condition
Completed.
TV will automatically restart.
Do not turn off

* [Auto Setup] will automatically start.
(p. 14)
Updating the TV Software

A new version of software may be released for download to enhance the performance or operations of the TV. If there is an update available, a notification message is displayed when the channel has the update information.

To download

(Press the EXIT button not to download)

You can update new software automatically or update manually.

1 Display the menu and select [Setup]

2 Select [System Menu]

3 Select [System Update]

Update TV’s software system [System Update]

To update automatically
Select [Auto Update Search in Standby]

Every time you set, the TV automatically performs a search in Standby and downloads an update, if any software updates are available.

The automatic updating is performed under the following conditions:
- Standby (TV turned off with the remote control)
- Recording of Timer Programming or Direct TV Recording is not in progress.

If System Update is performed, the software will be updated (it may change TV functions). If you do not want to do so, set [Auto Update Search in Standby] to [Off].

To update immediately

1 Select [System Update Search Now]

2 Searches for an update (for several minutes) and displays a corresponding message if any

3 Download

Note

- Download may take for about 60 minutes.
- During software download and update, DO NOT switch off the TV.
- The notification message might be a reminder. In this case, the schedule information (the date that the new version can be used) will appear. You can set the reservation for update. The update will not start when the TV is off.
Displaying PC Screen on TV

The screen of the PC connected to the TV can be displayed on the TV. You can also listen to PC sound with the audio cable connected.
* To connect PC (p. 82)

1 **Select the external input**

   ![Input Selection]

2 **Select [PC]**

   ![Select [PC]]

   - Corresponding signals  (p. 90)
   - If [H-freq.] or [V-freq.] is shown in red, the signals may not be supported.

### PC menu setting
* To make settings  “How to Use Menu Functions” (p. 31)

(p. 39)
Using Media Player

Media Player allows you to enjoy photo, video or music recorded on SD Card and USB Flash Memory.
VIERA IMAGE VIEWER is the function of the easy viewing for photos or videos recorded on an SD Card on the TV screen by simply inserting into the SD Card slot.

Photo mode:
Still pictures recorded by digital cameras will be displayed.

Video mode:
Moving pictures recorded by digital video cameras will be played back.

Music mode:
Digital music data will be played back.

- During the operation, audio signal is output from AV1, DIGITAL AUDIO OUT and HDMI2 (ARC function) terminals. But no video signals are output. AV1 can output audio signal if [AV1 out] is set to [Monitor] in the Setup Menu (p. 36). To use HDMI2 with ARC function, connect an amplifier that has ARC function (p. 74) and set to use theatre speakers (p. 80).
- [Date] shows the date on which the recording was made by the recording equipment. The file without record of the date is shown "**/**/****".
- The picture may not appear correctly on this TV depending on the recording equipment used.
- Display may take some time when there are many files and folders.
- Partly degraded files might be displayed at a reduced resolution.
- Picture setting may not work depending on the conditions.
- The folder and file names may be different depending on the digital camera or digital video camera used.

■ To insert or remove the SD Card / USB Flash Memory

USB Flash Memory
- Insert or remove straightly and completely.
- Connect the USB Flash Memory to the USB 1 or 2 port.

SD Card
① Gently insert the SD Card with the label surface facing front. ② Push until a click is heard. To remove, push it again.

- For the information of the devices ➥ “Devices for recording or playing back” (p. 88)
- For the supported file format ➥ “Supported file format in Media Player and media servers” (p. 85, 86)
Starting Media Player

1 Insert the SD Card or USB Flash Memory to the TV
   (p. 55)

2 Confirm the message and start Media Player
   • You can also start by pressing following button.
     AV “Watching External Inputs” (p. 28)

3 Select the device to access

   ① select
   ② access

   If two or more devices are not connected, this step will be skipped.

4 Select the content

   ① select
   ② access

   [Photo] (p. 57)
   [Video] (p. 60)
   [Music] (p. 62)

5 Enjoy Media Player

   Example: Thumbnail - [All photos]

   • To display the information of the highlighted content

     File name  p1010001.JPG
     Date  23/10/2011
     Pixel  1600X1200

   Selected device name

   (Note)
   • You can also access each mode directly by using VIERA TOOLS. (p. 30)
   • Select the appropriate device and content for playing back each file.
   • You can use the following buttons during playback. Set the code of the remote control to “73” (p. 29)

   Change the device

   You can change to the other device directly in the same mode if two or more devices are connected.

   1 While the thumbnail is displayed, display the device selection
      (yellow)

   2 Select the device to access
      ① select
      ② access

      Selected device name
Change the contents

You can switch to the other mode of Media Player from the thumbnail view.
- The mode can be switched in the current device.

1 While the thumbnail is displayed, display the contents selection
   - (blue)

2 Select the contents

   - select
   - access

Photo mode

Photo mode will read all "jpg" extension files in the SD Card or USB Flash Memory.

The thumbnail of all the photos in the SD Card or USB Flash Memory will be displayed.
Example: Thumbnail - [All photos]

To change the size of photos on a thumbnail screen
   - select [Change Size]
   - change
   - Error display

[Single view] - Photos are displayed one at a time.
Select the file from the thumbnail of photos to be viewed

- select
- access

Example:

To display / hide the operation guide
- To return to thumbnail
- To rotate 90°
  - (blue)

[Slideshow] - Slideshow completes when all photos are viewed within the current thumbnail.

1 Select the file from the thumbnail of photos for the first view
   - (red)

2 Start Slideshow

- To display / hide the operation guide
- To pause (return to Single view)
- To return to thumbnail

- To change the back ground music “Photo Settings” (p. 58)
To sort by folder, recorded date or recorded month

1 Display the view selection in the thumbnail view
   (green)

2 Select the sort type
   ① select
   ② access
   [Folder view]: Displays the thumbnail grouped by folder.
   * The files which are not into a folder will be collected to the folder named “/”.
   [Sort by Date] / [Sort by Month]: Displays the thumbnail grouped by the same date or month.
   * The group of the photos without a recorded date is shown as [Unknown].

To return to the thumbnail of all photos
   (green) ① select [All photos] ② access

Photo Settings

Setup the settings for Photo mode.

1 Display the option menu
   OPTION

2 Select [Slideshow Settings]

3 Select the items and set

- If you stopped the last playback on the way, the confirmation screen is displayed to select whether to start from where you stopped last time or from the beginning.

### Playback from the selected scene in the title (SD-Video or AVCHD)

Playback of the selected scene will start to the end of the title.

1. **Select the title**
   - 1) select
   - 2) access

- The structure of titles and scenes may vary depending on the digital video camera used.
- To repeat playback > “Video Setup” (p. 61)

### How to operate in the playback

**Example: Playback**

- To display / hide the operation guide and information banner
- To the previous title / scene
- (red)
- To the next title / scene
- (green)

- To operate the playback
  - Rewind
  - Pause (displays the time seek bar) / Playback
  - Fast forward
  - Stop

- To jump to the specified time point
  - While the time seek bar is displayed
    - Press: Search about 10 seconds
    - Press and hold: Search rapidly

- To change aspect

- To return to thumbnail
Using Media Player

**Video Setup**
Setup the settings for Video mode.

- Menu items and selectable options vary depending on the content.

1. Display the option menu
2. Select [Video Setup]
3. Select the items and set

### Adjustments / Configurations (alternatives)

<table>
<thead>
<tr>
<th>Menu</th>
<th>Item</th>
<th>Adjustments / Configurations (alternatives)</th>
</tr>
</thead>
</table>
| Video Setup | Video Preview | Sets to start the preview of the title or scene in the thumbnail view [Off] / [On]  
- Image may not be displayed for an instant in the thumbnail view. Set the preview [Off] to resolve this.  
- Only available in the thumbnail view |
| Multi Audio, Dual Mono Audio | | Selects between selectable sound tracks (if available)  
- It may take several seconds to change the sound.  
- Only available during playback |
| Subtitle | Subtitles On / Off (if available)  
- Only available during playback |
| Subtitle Text | Selects the font type to display subtitles correctly. (if available)  
- Only available during playback |
| Aspect Change | [Aspect1]: Displays the content enlarged without distortion.  
[Aspect2]: Displays the content full-screen.  
[Original]: Displays the content original size.  
- You can also change the aspect using the ASPECT button.  
- Aspect change may not work depending on the content.  
- Only available during playback |
| Repeat | Playback repeat within the title or selected file (depending on the content)  
[Off] / [On] |
| Title | Selects from a group of titles (if available) |

---

**Audio output Settings**
You can enjoy the multi-channel sound via an amplifier connected to DIGITAL AUDIO OUT or HDMI2 (ARC function) terminal.

- To confirm or change the current sound status ➔ (see below)

1. Display the menu and Select [Sound]
2. Select [SPDIF Selection] and set

### Adjustments / Configurations (alternatives)

<table>
<thead>
<tr>
<th>Menu</th>
<th>Item</th>
<th>Adjustments / Configurations (alternatives)</th>

- [RETURN]
Using Network Services
(DLNA / VIERA Connect)

**DLNA®**
This TV is a DLNA Certified™ product. DLNA (Digital Living Network Alliance) is a standard that makes DLNA Certified digital electronics easier and more convenient to use on a home network. To learn more, visit www.dlna.org.

It allows you to share photos, videos and music stored in the DLNA Certified media server (for example, PC with Windows 7 installed, DIGA Recorder etc.) connected to your home network, and enjoy the contents on the TV screen. It also allows you to control the TV with the DLNA Certified equipment connected to your home network. (DLNA Remote Control)

- For the supported file format ⇒ (p. 85, 86)
- AVCHD and DivX files are not supported by DLNA functions of this TV, but can be played by Media Player (p. 55).

### Media server
Store photos, videos or music into the DLNA Certified media server, and then you can enjoy them on the TV.

**To use a PC as a media server**
Prepare the PC with Windows 7 or ensure the server software is installed on the PC.

“Windows 7” and “TwonkyMedia server 6 (installed on the PC with Windows 7, Windows Vista or Windows XP)” are the server software that has been tested for compatibility with this TV (as of January, 2011). Any other server software have not been tested with this TV, therefore compatibility and performance cannot be assured.

- Windows 7
  - The setup for homegroup settings of Windows 7 is required. For details, refer to the help functions of Windows 7.
- TwonkyMedia server
  - “TwonkyMedia server” is the product of PacketVideo Corporation.
  - To obtain the Installation Guides for installing and setting “TwonkyMedia server”, visit the website of TwonkyMedia. Additional fees may be charged to obtain server software.

**Note**
- For more information about the server software, please consult each software company.
- When server software for the media server is installed on the PC, the data may be at risk of being accessed by other people. Please take care of the settings and connections under the network circumstances at the office, hotel or even at home when not using a router.

**To use a DLNA compatible DIGA Recorder as a media server**
By connecting a DLNA compatible DIGA Recorder to your home network, you can enjoy and control it as one of the media servers.
- Please read the manual of your DIGA Recorder to confirm whether the recorder is compatible with DLNA.

### DLNA Remote Control
You can control the TV with the DLNA Certified equipment.
- To use this function, set [Network Link Settings]. ⇒ (p. 65)
- “Windows 7” is the OS that has been tested for compatibility of this TV (as of January, 2011). For the operations, refer to the help functions of Windows 7.

**Network connection** ⇒ “Example 1”, “Example 2” (p. 64)
**Network setup** ⇒ (p. 65 - 68)
**DLNA operations** ⇒ (p. 69 - 72)

**VIERA Connect**
VIERA Connect is a gateway to the internet services unique to Panasonic. VIERA Connect allows you to access some specific websites supported by Panasonic, and enjoy internet contents such as videos, games, communication tools, etc. from VIERA Connect home screen.
- This TV does not support full web browser function and some features of the websites may not be available.

**Network connection** ⇒ “Example 1”, “Example 3” (p. 64)
**Network setup** ⇒ (p. 65 - 68)
**VIERA Connect operations** ⇒ (p. 18, 72)
Network connections

To use only DLNA features, you can operate the features without broadband network environment. To use VIERA Connect features, you need a broadband network environment.

- If you do not have any broadband network services, please consult your retailer for assistance.
- Set up and connect any equipment required for the network environment. You cannot make settings for the equipment on this TV. Read the manual of the equipment.
- Required speed (effective): at least 1.5 Mbps for SD and 6 Mbps for HD picture quality, respectively. If the transfer speed is not enough, contents may not be played back properly.

Example 1
(For DLNA and VIERA Connect)

- Ensure to use a LAN straight cable for this connection.
- If your modem has no broadband router functions, use a broadband router.
- If your modem has broadband router functions but there are no vacant ports, use a hub.
- Ensure that the broadband routers and hubs are compatible with 10BASE-T / 100BASE-TX.
- If you use the equipment compatible only with 100BASE-TX, category 5 LAN cables are required.

Example 2
(For DLNA)

You can connect the TV and the equipment directly to use DLNA features.

- Ensure to use a LAN cross cable for this connection.

Example 3
(For VIERA Connect)

You can connect the TV and the telecommunication equipment directly to use VIERA Connect features.

Note
- Contact your Internet Service Provider (ISP) telecommunications company for further assistance regarding the network equipment.
- Confirm the terms and conditions of the contracts with your Internet Service Provider (ISP) or telecommunications company. Depending on the contracts, additional fees may be charged or multiple connections to the internet may be impossible.
Network Setup

- Ensure the connections are completed before starting Network Setup.
  ⇒ “Network connections” (p. 64)

1 Display the menu and select [Network]

2 Network Link settings

Sets the link settings to control this TV from the network equipment via the network.

1 Select [Network Link Settings]

Using Network Services (DLNA / VIERA Connect)

Wired connection settings

This setting is for the network connection by using the LAN cable.

1 Select [Network Connection] and set to [Wired]

If you make the network connection like “Example 2” (p. 64), you do not have to set [Acquire DNS Address], [Proxy] and [Proxy Port].

2 Select [IP/DNS Settings] and set the items

- [Acquire IP Address] / [Acquire DNS Address]
  Sets [IP Address], [Subnet Mask], [Default Gateway], [Primary DNS] and [Secondary DNS]. Select [Acquire IP Address] / [Acquire DNS Address] and set to [Auto] (recommended).

- Manual settings ([IP Address], [Subnet Mask], [Default Gateway], [Primary DNS], [Secondary DNS])

  The available settings are displayed automatically.

3 Select [Proxy Settings] and set the items

- [Proxy]
  Sets Proxy address.
  This is the address of the relay server that is connected to the target server instead of the browser and sends data to the browser. Setting is required if specified by the provider.

1. Select [Proxy]

- [Proxy Port]
  Sets Proxy port number.
  This number is also specified by the provider with the Proxy address.

1. Select [Proxy Port]
4 Select [Connection Test] and access to test

Connection Test

- Check network cable connection.
- Check acquired IP address.
- Check for devices using same IP address.
- Check gateway connection.
- Check server connection.

- Performs automatic testing of the network connection for the TV. (It takes a while to test.)

- succeeded
The test is successful and the TV is connected to the network.
- failed
Check the settings and connections. And then select [Retry].

Wireless connection settings

This setting is for the wireless network connection.
- Confirm the encryption key, settings and positions of your access point before starting setup. For details, read the manual of the access point.

1 Select [Network Connection] and set to [Wireless]

- When the access point is already set, [Current Settings] screen will be displayed. To change the settings, select [No] on this screen and go to the next step.

2 Select [Wireless Network Settings]

- To search access points again

3 Select your desired access point

- For WPS(Push button)] (p. 17)
- For WPS (PIN)] (p. 68)

4 Access the encryption key input mode

- If the selected access point is not encrypted, the confirmation screen will be displayed. It is recommended to select the encrypted access point.
5 Enter the encryption key of the access point

Set characters
- You can set characters by using numeric buttons.
- After settings, return to the previous menu.

6 Select [Connection Test] and access to test

- Performs automatic testing of the network connection for the TV. (It takes a while to test.)

[WPS(PIN)]
Enter the PIN code to the access point, and then select [Connect]

[WPS(PIN)]
Please register the following PIN codes on the wireless access point.

PIN code : 12345678
Select 'Connect' after entering and saving the settings on the wireless access point.

[Manual]
You can setup SSID, authentication type, encryption type, and encryption key manually.
Follow the on-screen instructions and set manually.
- When you use 11n (5 GHz) for the wireless system between the Wireless LAN Adaptor and access point, please select [AES] for the encryption type.

Update TV’s software

Accesses the specific website to update TV’s software and search if any software updates are available.

Select [Software Update]
Using DLNA® features

- Ensure the preparation of the media server, network connections and network settings are completed.
  - “Media server” (p. 63), “Network connections” (p. 64), “Network Setup” (p. 65 - 68)

1. Display [VIERA TOOLS] and select [Media Server]

2. Select one of the media servers to access
   - Example: Media server list

3. Select the file
   - Example: File list

Note
- Non-playable files are also listed but cannot be selected.
- Turn the TV off, and then on again when changing or reconnecting the network connection.
- You can use the following buttons during playback. Set the code of the remote control to “73” (p. 29)

For photo file

[Single view] - Photos are displayed one at a time.

Example:
[Slideshow] - Slideshow completes when all photos are viewed within the list.

1. Select the photo file from the list for the first view
2. Start Slideshow

- To display / hide the operation guide
- To pause (return to Single view)
- To return to list

For video file

Playback - Playback will start.
If you stopped the last playback on the way, the confirmation screen is displayed to select whether to start from where you stopped last time or from the beginning.

Example: Playback

- To display / hide the operation guide and information banner
- To the previous content
- To the next content
- To return to list
- Press to skip forward about 30 seconds.
- Pause (displays the time seek bar) / Playback
- Fast forward
- Stop

For music file

Playback - Playback will start.

Example: Playback

- To display / hide the operation guide
- To operate the playback
- To the previous track
- To the next track
- To return to list

For DIGA Recorder

Control the DIGA Recorder
The screen of the DIGA Recorder will be displayed. You can control the functions of the DIGA Recorder with this TV remote control according to the operation guide.

Example:

- Before operating, register this TV on the DIGA Recorder.
- For details, read the manual of the DIGA Recorder.
## Option menu for each content

Setup the settings for Photo, Video and Music file operations.

1. **Display the option menu**
2. **Select [Slideshow Settings], [Video Setup] or [Music Setup]**
3. **Select the items and set**

<table>
<thead>
<tr>
<th>Menu</th>
<th>Item</th>

</table>
Audio output settings (for video contents)

You can enjoy the multi-channel sound via an amplifier connected to DIGITAL AUDIO OUT or HDMI2 (ARC function) terminal.

- To confirm or change the current sound status ⇒ (see below)

1 Display the menu and Select [Sound]

2 Select [SPDIF Selection] and set

<table>
<thead>
<tr>
<th>Menu</th>
<th>Item</th>
<th>Adjustments / Configurations (alternatives)</th>
</tr>
</thead>
</table>
| Sound   | SPDIF Selection | SPDIF: A standard audio transfer file format  
Selects the initial setting for digital audio output signal from DIGITAL AUDIO OUT and HDMI2 (ARC function) terminals [Auto] / [PCM]  
[Auto]: Dolby Digital Plus, Dolby Digital and HE-AAC multi-channel are output as Dolby Digital Bitstream. DTS is output as DTS. MPEG is output as PCM.  
[PCM]: Digital output signal is fixed to PCM. |

VIERA Connect

You can access VIERA Connect and enjoy various network contents.

- VIERA Connect requires a broadband internet connection. Dial-up internet connections cannot be used.
- Ensure the network connections and network settings are completed.
  ⇒ “Network connections” (p. 64), “Network Setup” (p. 65 - 68)
- For details about VIERA Connect operation ⇒ (p. 18)

Setup menu (Items in [Setup] may change without notice.)

<table>

</tr>
</tbody>
</table>

Note

- Be sure to update the software when a software update notice is displayed on the TV screen. If the software is not updated, you will not be able to use VIERA Connect.
  You can update the software later manually. ⇒ [Software Update] in [Network] (p. 68)
- VIERA Connect home screen is subject to change without notice.
- The services through VIERA Connect are operated by their respective service providers, and service may be discontinued either temporarily or permanently without notice. Therefore, Panasonic will make no warranty for the content or the continuity of the services.
- Some content may be inappropriate for some viewers.
- Some content may only be available for specific countries and may be presented in specific languages.
- Depending on the connection environment, the internet connection may be slow or may not be successful.
- During the operation, audio signal is output from AV1, DIGITAL AUDIO OUT and HDMI2 (ARC function) terminals. But no video signals are output. AV1 can output audio signal if [AV1 out] is set to [Monitor] in the Setup Menu (p. 36). To use HDMI2 with ARC function, connect an amplifier that has ARC function (p. 74) and set to use theatre speakers (p. 80).
- You can restrict access to VIERA Connect. ⇒ [Child Lock] (p. 49)
- Turn the TV off, and then on again when changing or reconnecting the network connection.
Link Functions (Q-Link / VIERA Link)

Q-Link connects the TV and DVD Recorder / VCR, and enables easy recording, playback, etc. ➞ (p. 75)
VIERA Link (HDAVI Control™) connects the TV and the equipment with VIERA Link function, and enables easy control, convenient recording, playback, energy saving, creating home theatre, etc., without complicated setting. ➞ (p. 76 - 80)

You can use Q-Link and VIERA Link functions together.
* This TV supports “HDAVI Control 5” function. But available features are depending on the connected equipment’s version of HDAVI Control. Please read the manual of the equipment to confirm the version.
* VIERA Link features may be available even with other manufacturers’ equipment supporting HDMI CEC.

Summary of Q-Link and VIERA Link features

### Q-Link (SCART connection)

<table>
<thead>
<tr>
<th>Connected equipment</th>

To use Player theatre / Blu-ray Disc theatre

To use Amplifier

Connection

HD Video Camera / LUMIX Camera with VIERA Link function

- Use fully wired HDMI compliant cable.
- Connect the equipment supporting VIERA Link to the TV’s HDMI2, HDMI3 or HDMI4 terminal via an HDMI cable.
- Use fully wired SCART cable.
- If you use a SCART cable for audio output, connect the equipment supporting VIERA Link to the TV’s AV1 terminal and set [AV1 out] to [Monitor] in the Setup Menu (p. 36).
- Use the optical digital audio cable or SCART cable for audio output from the TV.

*1: Available with the equipment which has “HDAVI Control 2 or later” function.
*2: Available with the equipment which has “HDAVI Control 3 or later” function.
*3: Available with the equipment which has “HDAVI Control 4 or later” function.
*4: Available with a DIGA Recorder which has HDD.
*5: This function is available regardless of the version of HDAVI Control when the recorder supports Q-Link and is connected via SCART cable.

*6: While playing a disc.
*7: Except for watching a disc.
*8: If the connected equipment has “HDAVI Control 5” function, you do not have to use this audio cable (Optical digital audio cable or SCART cable). In this case, connect the equipment to the TV’s HDMI2 terminal via an HDMI cable.

VIERA Link Control of compatible equipment [VIERA Link Control] (p. 78)

- Table below displays maximum number of compatible equipment that can be controlled by VIERA Link Control. This includes connections to equipment already connected to the TV.
  For example, DIGA Recorder connected to Amplifier which is connected to the TV via an HDMI cable.

<table>
<thead>
<tr>
<th>Type of the equipment</th>

Q-Link

Preparations
* Connect the DVD Recorder / VCR with the following logos:
  “Q-Link”, “NEXTVIEWLINK”, “DATA LOGIC (a trademark of Metz Corporation)”, “Easy Link (a trademark of Philips Corporation)”, “Megalogic (a trademark of Grundig Corporation)”, “SMARTLINK (a trademark of Sony Corporation)”
* Q-Link connection ⇒ (p. 73)
* Use fully wired SCART cable.
* Set up the DVD Recorder / VCR. Read the manual of the recorder.
* Q-Link terminal setup in the Setup Menu ⇒ [AV1 out] (p. 36)
* Download preset - channel, language and country / region settings ⇒ “Preset download” (see below)

Features available

**Preset download**
Channel, language and country settings can be downloaded to the recorder.
  * DVB-C channel settings cannot be downloaded.
  * To download settings
    ⇒ [Download] (p. 37), [Auto Setup] (p. 14, 15, 40)

**Direct TV Recording** - What you see is What you record
Records the current programme in DVD Recorder / VCR immediately.
  * Set the code of the remote control to “73” (p. 29).

* When Direct TV Recording is performed, the recorder is automatically turned on if it is in Standby mode.
* You can change channel or turn the TV off while the recorder is recording from its own tuner.
* Changing channel is not available while the recorder is recording from the TV tuner.

**To stop recording**
Unlock the tuner

| Tuner Locked Press EXIT to unlock and stop recording |

**Power on link and Easy playback**
Set Power on Link [On] in the Setup Menu to use this function ⇒ [Power on Link] (p. 36)
When DVD Recorder / VCR starts playback or direct navigator / function menu for the equipment are activated, the TV is turned on and input mode is switched automatically so that you can view the content. (Only when the TV is in Standby mode.)

**Power off link**
Set Power off Link [On] in the Setup Menu to use this function ⇒ [Power off Link] (p. 36)
When TV is set to Standby mode, the recorder is also automatically set to Standby. (Only when the videocassette or disc is not active.)
* This function works even if the TV enters Standby mode automatically by auto power standby function.

**Note**
* Some recorders are not applicable. Read the manual of the recorder.
VIERA Link “HDAVI Control™”

Enjoy additional HDMI Inter-Operability with Panasonic products which have “HDAVI Control” function.

This TV supports “HDAVI Control 5” function.
Connections to the equipment (DIGA Recorder, HD Video Camera, Player theatre, Amplifier, etc.) with HDMI and SCART cables allow you to interface them automatically (p. 73, 74).
These features are limited to models incorporating “HDAVI Control” and “VIERA Link”.
• Some functions are not available depending on the equipment’s version of HDAVI Control. Confirm the connected equipment’s version of HDAVI Control.
• VIERA Link “HDAVI Control”, based on the control functions provided by HDMI which is an industry standard known as HDMI CEC (Consumer Electronics Control), is a unique function that we have developed and added. As such, its operation with other manufacturers’ equipment that supports HDMI CEC cannot be guaranteed.
• Please refer to individual manuals for other manufacturers’ equipment supporting VIERA Link function.
• About applicable Panasonic equipment, consult your local Panasonic dealer.

Preparations
• Connect the equipment supporting VIERA Link.
• VIERA Link connection (p. 73, 74)
• Use fully wired HDMI compliant cable. Non-HDMI-compliant cables cannot be utilised.
Recommended Panasonic’s HDMI cable part number:
  • RP-CDHS15 (1.5 m)  • RP-CDHS30 (3.0 m)  • RP-CDHS50 (5.0 m)
• Use fully wired SCART cable.
• Set up the connected equipment. Read the manual of the equipment.
• For optimal recording, the settings of the recorder may need to be changed. For details, read the manual of the recorder.
• Download preset - channel, language and country / region settings “Preset download” (see below)
• Set [VIERA Link] to [On] in the Setup Menu. [VIERA Link] (p. 36)
• Set up the TV.
  After connection, turn the equipment on and then switch the TV on.
Select the input mode from HDMI1, HDMI2, HDMI3 or HDMI4 (p. 28), and make sure that an image is displayed correctly.
  This setup should be done each time when the following conditions occur:
  • for the first time
  • when adding or reconnecting equipment
  • when changing setup

Features available

Preset download
Channel, language and country / region settings can be downloaded to the recorder.
• DVB-C channel settings cannot be downloaded.
• To download settings
  ➔ [Download] (p. 37), [Auto Setup] (p. 14, 15, 40)

Easy playback
Automatic input switching - When the connected equipment is operated, input mode is switched automatically. When it is stopped operating, input mode is returned.

Power on link
Set Power on Link [On] in the Setup Menu to use this function ➔ [Power on Link] (p. 36)
When the connected equipment starts playback or direct navigator / function menu for the equipment are activated, the TV is automatically turned on. (Only when the TV is in Standby mode.)

Power off link
Set Power off Link [On] in the Setup Menu to use this function ➔ [Power off Link] (p. 36)
When the TV is set to Standby mode, the connected equipment is also automatically set to Standby.
• This function will work even if the TV enters Standby mode automatically by auto power standby function.
Reduce unnecessary power consumption in Standby [Standby Power Save]

Set Standby Power Save [On] in the Setup Menu to use this function ⇒ [Standby Power Save] (p. 36)
The power consumption in Standby mode of the connected equipment is controlled higher or lower in synchronisation with the TV on / off state to reduce the consumption.
When the TV is set to Standby mode, the connected equipment is automatically set to Standby and the power consumption of the connected equipment is automatically minimised.
When the TV is turned on, the connected equipment is still in Standby mode, but the power consumption is increased to make startup time fast.
- This function is effective if the connected equipment can change the power consumption in Standby mode and is set to higher consumption.
- This function works when [Power off Link] is set to [On].

Auto standby for unnecessary equipment [Intelligent Auto Standby]

Set Intelligent Auto Standby [On (With reminder)] or [On (No reminder)] in the Setup Menu to use this function ⇒ [Intelligent Auto Standby] (p. 37)
When the TV is on, non-watched or non-used connected equipment goes into Standby mode automatically to reduce the power consumption. For example, when the input mode is switched from HDMI or when Speaker Selection is changed to [TV] (except for watching a disc).
- If you select [On (With reminder)], the on-screen message will be displayed before the connected equipment turns to standby.
- This function may not work properly depending on the connected equipment. If required, set to [Off].

Direct TV Recording - What you see is What you record [Direct TV Rec]

Records the current programme in the DIGA Recorder immediately.
- If you connect a variety of recorders including other manufacturers’ recorders at the same time, connect the DIGA Recorder to the TV’s lower HDMI terminal number. For example, if you use HDMI1 and HDMI2 for two recorders, connect the DIGA Recorder to HDMI1.
- If you cannot operate, check the settings and the equipment.
⇒ “Summary of Q-Link and VIERA Link features” (p. 73, 74), “Preparations” (p. 76)
- To record the programme which DIGA Recorder does not support, SCART connection is required and the programme is recorded by Q-Link function (p. 75).
- Depending on the programme, SCART connection may be required to record.
- You can change channel or turn the TV off while the recorder is recording from its own tuner.
- You can not change channel while the recorder is recording from the TV tuner.

1 Display [VIERA TOOLS] and select [VIERA Link]

2 Select [Direct TV Rec] and start recording

To stop recording
Select [Stop] in [Direct TV Rec]
Pause Live TV programme [Pause Live TV]

You can pause the current TV programme and resume later. The current TV programme will be recorded on HDD of the connected DIGA Recorder.
- This function is available with a DIGA Recorder which has HDD.
- If you connect a variety of recorders including other manufacturers' recorders at the same time, connect the DIGA Recorder which has HDD to the TV's lower HDMI terminal number. For example, if you use HDMI1 and HDMI2 for two recorders, connect the DIGA Recorder which has HDD to HDMI1.
- If you cannot operate, check the settings and the equipment.

“Summary of Q-Link and VIERA Link features” (p. 73, 74), “Preparations” (p. 76)

1 Display [VIERA TOOLS] and select [VIERA Link]

2 Select [Pause Live TV] and pause
The TV picture will be paused.

VIERA Link Menu
Pause Live TV Start
Direct TV Rec Start
VIERA Link Control Recorder
Speaker Selection Home Cinema

To operate [Pause Live TV]
- Search backward
- Pause
- Search forward
- Playback
- Stop
  - If you stop playback, the recorded programme will be deleted from HDD.

To return to current TV (Stop playback of [Pause Live TV] / cancel pause)
Select [Yes]

Stop Pause Live TV?
Yes No

- If you stop playback or cancel pause, the recorded programme will be deleted from HDD.

Control the menu of the connected equipment by VIERA remote control [VIERA Link Control]

You can control some functions of the connected equipment with this TV remote control pointing at the TV's signal receiver.
- If you cannot operate, check the settings and the equipment.

“Summary of Q-Link and VIERA Link features” (p. 73, 74), “Preparations” (p. 76)
- For details of the operations for the connected equipment, read the manual of the equipment.

1 Display [VIERA TOOLS] and select [VIERA Link]
2 Select [VIERA Link Control]

VIERA Link Menu
- Pause Live TV: Start
- Direct TV Rec: Start
- VIERA Link Control: Recorder
- Speaker Selection: Home Cinema

(1) select  (2) access

3 Select the equipment to access
Select the type of the connected equipment and access.

VIERA Link Menu
- Pause Live TV: Start
- Direct TV Rec: Start
- VIERA Link Control: Recorder
- Speaker Selection: Home Cinema

(1) select  (2) access

- You can also access directly by using VIERA TOOLS. (p. 30)
- The displayed item may vary depending on the connected equipment.
- [Home Cinema] means Player theatre, Blu-ray Disc theatre or Recorder theatre.
- [Other] means Tuner set top box.

The menu of the accessed equipment will be displayed.
(Input mode will be changed automatically)

4 Operate the menu of the equipment
- Set the code of the remote control to “73” (p. 29).

Follow the operation guide
- To display the operation guide

OPTION

If other manufacturers’ equipment is accessed, Setup / Contents Selection menu may be displayed.
- Available VIERA remote control buttons depend on the connected equipment.

Note
- Some operations may not be available depending on the equipment. In this case use its own remote control to operate the equipment.

■ If multiple recorders or players are connected

VIERA Link Menu
- Pause Live TV: Start
- Direct TV Rec: Start
- VIERA Link Control: Recorder
- Speaker Selection: Home Cinema

[Recorder1-3 / Player1-3]

The number is given from the TV’s lower number of HDMI terminal connected to the same type equipment. For example, two recorders to HDMI2 and HDMI3, the recorder connected to HDMI2 is displayed as [Recorder1], and the recorder connected to HDMI3 is displayed as [Recorder2].

■ If you access non-VIERA Link equipment

VIERA Link Menu
- Pause Live TV: Start
- Direct TV Rec: Start
- VIERA Link Control: Recorder
- Speaker Selection: Home Cinema

The type of the connected equipment is displayed.
Although you can access the connected equipment, you cannot operate it. Use its own remote control to operate the equipment.
Speaker control [Speaker Selection]

You can control the theatre speaker with this TV remote control pointing at the TV’s signal receiver.

- If you cannot operate, check the settings and the equipment.
  “Summary of Q-Link and VIERA Link features” (p. 73, 74), “Preparations” (p. 76)

1. Display [VIERA TOOLS] and select [VIERA Link]

2. Select [Speaker Selection]

3. Set to [Home Cinema] or [TV]

[Home Cinema]:
The sound is from theatre speakers. Player theatre, Blu-ray Disc theatre or Amplifier will be automatically turned on if it is in Standby mode.
- Volume up / down
  
- Mute
  - The sound of TV speakers is mute.
  - When the equipment is turned off, TV speakers will be active.

[TV]:
TV speakers are active.

Multi-channel sound

If you want to enjoy the multi-channel sound (e.g. Dolby Digital 5.1ch) via an Amplifier, connect it with HDMI cable and Optical digital audio cable (p. 74), and then select [Home Cinema]. If your Amplifier has “HDAVI Control 5” function, you only need to connect it with HDMI cable to the TV’s HDMI2 terminal.
To enjoy the sound from the DIGA Recorder in multi-channel sound, connect an HDMI cable from the DIGA Recorder to the Amplifier (p. 74).

Note

- These functions may not work properly depending on the connected equipment.
- Image or sound may not be available for the first few seconds when input mode is switched.
- “HDAVI Control 5” is the newest standard (as of November, 2011) for HDAVI Control compatible equipment. This standard is compatible with conventional HDAVI equipment.
- To confirm this TV’s version of HDAVI Control ➡️ [System Information] (p. 39)
External Equipment

These diagrams show our recommendations for connection of your TV to various pieces of equipment. For other connections, consult the instructions for each piece of equipment, the basic connection (p. 11 - 13), the table (p. 83), and the specifications (p. 97 - 98).

**To watch DVDs**

AV2 (COMPONENT / VIDEO) adaptor (supplied)

***Rear of the TV***

- **AV2 (COMPONENT / VIDEO) adaptor (supplied)**

**USB devices**

USB 2

5V

500mA MAX

**HDMI equipment**

- Fully wired HDMI compliant cable

**Camcorder / Game equipment**

- HDMI connection (p. 89)

**To listen with speakers**

Optical digital audio cable

- Amplifier with speaker system

To enjoy the sound from the external equipment in multi-channel sound (e.g. Dolby Digital 5.1ch), connect the equipment to the amplifier. For the connections, read the manuals of the equipment and amplifier.
Network (wired)

- LAN cable (Shielded)
- Modem
- Hub or Router
- Internet

- Rear of the TV
- AV2 (COMPONENT / VIDEO) adapter (supplied)

Headphones

- Headphones (M3 stereo mini plug)
- To adjust volume: [Headphone Volume] (p. 34)

PC

- Computer
- Conversion adaptor (if necessary)
- (Listening)
- (Viewing)

**Notes:**
- ○: Recommended Connection
- *1: To connect the equipment, the terminal adaptor (supplied) is necessary.
- *2: Use HDMI1 for automatic input switching.
- *3: Use HDMI2 for connecting an amplifier. This connection is applicable when using an amplifier that has ARC (Audio Return Channel) function.
- *4: Use USB 2 port for connecting the Communication Camera
**Technical Information**

**Auto Aspect**

The optimum size and aspect can be chosen automatically, and you can enjoy finer images. (p. 22)

**Aspect Control Signal**

[WIDE] will appear in the top left of the screen if a Widescreen signal (WSS) or a Control signal through SCART / HDMI terminal is found.

The aspect will switch to the appropriate 16:9 or 14:9 widescreen ratio.

This function will work in any aspect mode.

**Auto mode**

Auto mode determines the best aspect ratio to fill the screen using a four step process (WSS, Control signal through SCART / HDMI terminal, Letterbox detection or Justify to fill the screen).

This process may take several minutes, depending on the darkness of the image.

Letterbox detection:

If black bands at the top and bottom of the screen are detected, Auto mode chooses the best ratio and expands the image to fill the screen.

If no aspect signals are detected, Auto mode enhances the image for optimum viewing pleasure.

**Note**

* The ratio varies depending on the programme, etc. If the ratio is out of the standard 16:9, black bands at the top and bottom of the screen may appear.

* If the screen size looks unusual when a widescreen-recorded programme is played back on a VCR, adjust the tracking of the VCR. Read the manual of the VCR.
## Supported file format in Media Player and media servers

**Note**

- Some files may not be played back even if they fulfil these conditions.
- Do not use two-byte characters or other special codes for data.
- The device may become unusable with this TV if the file or folder names are changed.
DivX

DivX Certified® to play DivX® and DivX Plus® HD (H.264/MKV) video up to 1080p HD including premium content.
ABOUT DIVX VIDEO:
DivX® is a digital video format created by DivX, LLC, a subsidiary of Rovi Corporation. This is an official DivX Certified® device that plays DivX video. Visit divx.com for more information and software tools to convert your files into DivX videos.

■ Subtitle text file of DivX
Subtitle format - MicroDVD, SubRip, TMPlayer
- The DivX video file and subtitles text file are inside the same folder, and the file names are the same except for the file extensions.
- If there are more than one subtitles text files inside the same folder, they are displayed in the following order of priority:
  - `.srt`, `.sub`, `.txt`.
- To confirm or change the current subtitle status while playing DivX content, press the OPTION button to display Option Menu.
- Depending on the methods used to create the file or the state of recording, only parts of the subtitles may be displayed, or the subtitles may not be displayed at all.

Note
- Depending on how you make SD Card, USB Flash Memory or the media server, files and folders may not be displayed in the order you numbered.
- Depending on how you create the files and the structure of folders, the files and folders may not be displayed.
- When there are many files and folders, operation may take time to complete or some files may not be displayed or playable.

ABOUT DIVX VIDEO-ON-DEMAND:
This DivX Certified® device must be registered in order to play purchased DivX Video-on-Demand (VOD) movies. To obtain your registration code, locate the DivX VOD section in the Setup Menu. Go to vod.divx.com for more information on how to complete your registration.

■ To show DivX VOD registration code

[DivX® VOD] (p. 39)
- If you want to generate the new registration code, you have to deregister the current registration code.
  After playing DivX VOD content once, the confirmation screen to deregister will be displayed in [DivX® VOD] in the Setup Menu. If you press the OK button on the confirmation screen, the deregistration code will be generated and you will not be able to play any contents that you purchased using the current registration code.
  You will obtain the new registration code by pressing the OK button on the deregistration code screen.
- If you purchase DivX VOD content using a registration code different from this TV’s code, you will not be able to play this content. ([Your device is not authorized to play this DivX protected video.] is displayed.)

■ Regarding DivX content that can only be played a set number of times

Some DivX VOD content can only be played a set number of times.
When you play this content, the remaining number of plays is displayed. You cannot play this content when the number of remaining plays is zero. ([This DivX rental has expired.] is displayed.)
- When playing this content, the number of remaining plays is reduced by one in the following conditions:
  - If you exit the current application.
  - If you play the other content.
  - If you go to the next or previous content.
Devices for recording or playing back

- **SD Card**
  Card format:
  - SDXC Card - exFAT
  - SDHC Card / SD Card - FAT16 or FAT32
  Compliant card type (maximum capacity):
  - SDXC Card (64 GB), SDHC Card (32 GB), SD Card (2 GB), miniSD Card (2 GB) (requiring miniSD adaptor)
  - If miniSD Card is used, insert / remove it together with the adaptor.
  - Check the latest information on the card type at the following website. (English only)
    http://panasonic.jp/support/global/cs/tv/
  - Use an SD Card which meets SD standards. If not, it may cause the TV to malfunction.

- **USB Flash Memory** (for playing back in Media Player)
  - USB Flash Memory format: FAT16, FAT32 or exFAT
  - A USB HDD formatted by PC is not supported in Media Player.

**Note**
- Data modified with a PC may not be displayed.
- Do not remove the device while the TV is accessing data. Otherwise this can damage device or TV.
- Do not touch the pins on the device.
- Do not subject the device to a high pressure or impact.
- Insert the device in the correct direction. Otherwise this can damage device or TV.
- Electrical interference, static electricity, or erroneous operation may damage the data or device.
- Back up the recorded data at regular intervals in case of deteriorated or damaged data or erratic operation of the TV. Panasonic is not liable for any deterioration or damage of recorded data.

PC connection

A PC may be connected to this TV so that the PC screen is displayed and sound is heard from the TV.
- PC signals that can be input: Horizontal scanning frequency 31 to 69 kHz; vertical scanning frequency 59 to 86 Hz (more than 1,024 signal lines could result in incorrect display of the image).
- A PC adaptor is not necessary for the DOS/V-compliant D-sub 15-pin connector.

**Note**
- Some PC models cannot be connected to this TV.
- When using PC, set the colour display quality of PC to the highest position.
- For details of the applicable PC signals
  “Input signal that can be displayed” ⇒ (p. 90)
- D-sub 15-pin connector signal

  - 16:9: 1,920 × 1,080 pixels
HDMI connection

HDMI (high-definition multimedia interface) is the world’s first complete digital consumer AV interface complying with a non-compression standard. HDMI allows you to enjoy high-definition digital images and high-quality sound by connecting the TV and the equipment. HDMI-compatible equipment*1 with an HDMI or DVI output terminal, such as a DVD player, a set top box or game equipment, can be connected to the HDMI terminal using an HDMI compliant (fully wired) cable. For more information about connections ⇒(p. 12, 81)

■ Applicable HDMI features
- Input audio signal:
  2ch Linear PCM (sampling frequencies - 48 kHz, 44.1 kHz, 32 kHz)
- Input video signal:
  ⇒ "Input signal that can be displayed" (p. 90)
  Match the output setting of the digital equipment.
- Input PC signal:
  ⇒ "Input signal that can be displayed" (p. 90)
  Match the output setting of the PC.

■ DVI connection
If the external equipment has only a DVI output, connect to the HDMI terminal via a DVI to HDMI adaptor cable*3. When the DVI to HDMI adaptor cable is used, connect the audio cable to AUDIO terminal with the supplied AV2 (COMPONENT / VIDEO) adaptor.

Note
- Audio settings can be made on [HDMI1 / 2 / 3 / 4 Input] in the Sound Menu. (p. 35)
- If the connected equipment has an aspect adjustment function, set the aspect ratio to “16:9”.
- These HDMI connectors are “type A”.
- These HDMI connectors are compatible with HDCP (High-Bandwidth Digital Content Protection) copyright protection.
- Equipment having no digital output terminal may be connected to the input terminal of component or video to receive analogue signals.
- This TV incorporates HDMI™ technology.

*1: The HDMI logo is displayed on HDMI-compliant equipment.
*2: Audio Return Channel (ARC) is a function to send digital sound signals via an HDMI cable.
*3: Enquire at your local digital equipment retailer shop.

USB connection

- It is recommended to connect the USB Flash Memory or Communication Camera to the TV’s USB ports directly.
- Some USB devices or USB HUB may not be used with this TV.
- You cannot connect any devices by using USB card reader.
- You cannot use two or more same kind of USB devices simultaneously except USB Flash Memory.
- Additional information for USB devices may be on the following website. (English only)
  http://panasonic.jp/support/global/cs/tv/

■ USB Keyboard
- The USB Keyboard requiring its driver is not supported.
- To change the language type ⇒[USB Keyboard Layout] (p. 39)
- Characters may not be displayed correctly on the TV screen depending on the connected keyboard or the keyboard layout setting.
- Some of the keys of USB keyboards may correspond to the operation of the remote control.

FAQs

Before requesting service or assistance, please follow these simple guides to resolve the problem. If the problem still persists, please contact your local Panasonic dealer for assistance.

Block noise, frozen or disappearing image occurs in DVB mode / White spots or shadow image (ghosting) occurs in Analogue mode / Some channels cannot be tuned
- Check the position, direction and connection of the aerial.
- Check [Signal Condition] (p. 45). If [Signal Quality] is displayed in red, the DVB signal is weak.
- Weather conditions will affect signal reception (heavy rain, snow, etc.), in particular in poor reception areas. Even during good weather, the high pressure can cause poor reception of some channels.
- Due to the digital reception technologies involved, quality of the digital signals may be relatively low in some cases, despite good reception of analogue channels.
- Turn the TV off with the Mains power On / Off switch, and then on again.
- If problem persists, consult your local dealer or service provider for the availability of services.

No programmes shown on TV Guide
- Check the digital transmitter.
- Adjust the direction of the aerial to another transmitter installed nearby.
- Check the analogue broadcast. If the image quality is poor, check the aerial and consult your local dealer.

Neither image nor sound is produced
- Check the TV is turned on.
- Check the mains lead is plugged into the TV and the socket outlet.
- Check the TV is in AV mode.
- Check the correct input mode is selected.
- Check the Picture Menu (p. 32 - 33) and volume.
- Check all required cables and connections are firmly in place.

Auto aspect
- Auto aspect is designed to provide you with the best ratio to fill the screen. (p. 84)
- Press the ASPECT button if you want to change the aspect ratio manually. (p. 22)

Black and white picture
- Check that the output of the external equipment matches the input of the TV.
  When connecting with SCART, ensure the output setting of the external equipment is not S-Video.

Input mode, i.e. EC/AV1 remains on the screen
- Press the i button to clear it.
  Press again to redisplay.

Q-Link function does not work
- Confirm SCART cable and connection.
  Also set [AV1 out] in the Setup Menu. (p. 36)

[VIERA Link] function does not work and an error message appears
- Confirm the connection. (p. 73, 74)
- Turn the connected equipment on and then switch the TV on. (p. 76)

Recording does not start immediately
- Check the settings of the recorder. For details, read the manual of the recorder.

There may be red, blue, green and black spots on the screen
- This is a characteristic of liquid crystal panels and is not a problem. The liquid crystal panel is built with very high precision technology giving you fine picture details. Occasionally, a few non-active pixels may appear on the screen as a fixed point of red, green, blue or black. Please note this does not affect the performance of your LCD.
<table>
<thead>
<tr>
<th>Problem</th>
<th>Causes / Actions</th>
</tr>
</thead>
</table>
| Chaotic image, noisy | - Set [P-NR] in the Picture Menu to remove noise.  
- Check nearby electrical products (car, motorcycle, fluorescent lamp). |
| No image can be displayed | - Is [Contrast], [Brightness] or [Colour] in the Picture Menu set to the minimum?  
- Check the setting of [AV2] ([COMPONENT] / [VIDEO]) in [Input Selection] to match the output of the external equipment. |
| Blurry or distorted image (no sound or low volume) | - Reset channels.  
- Check nearby electrical products (car, motorcycle, fluorescent lamp). |
| Unusual image is displayed | - Turn the TV off with Mains power On / Off switch, then turn it on again.  
- If the problem persists, initialise all settings.  
- Check the setting of [AV2] ([COMPONENT] / [VIDEO]) in [Input Selection] to match the output of the external equipment. |
| No sound is produced | - Is “Sound mute” active?  
- Is the volume set to the minimum? |
| Sound level is low or sound is distorted | - Sound signal reception may be deteriorated.  
- Set [MPX] (p. 34) in the Sound Menu to [Mono]. (Analogue) |
| Sound is unusual | - Set the sound setting of the connected equipment to “2ch L.PCM”.  
- Check the [HDMI1 / 2 / 3 / 4 Input] setting in the Sound Menu.  
- If digital sound connection has a problem, select analogue sound connection. |
| Pictures from external equipment are unusual when the equipment is connected via HDMI | - Check the HDMI cable is connected properly.  
- Turn the TV and equipment off, then turn them on again.  
- Check an input signal from the equipment.  
- Use equipment compliant with EIA/CEA-861/861D. |
| Cannot connect to the network | - Check the LAN cable or wireless LAN is connected properly.  
- Check the connections and settings.  
- Check the network equipment and network environment.  
- The router may not be set to issue IP address automatically. If the network administrator prefers to allocate an IP address, set an IP address manually.  
- The router may be using MAC address filtering (security setting). Confirm the MAC Address of this TV (p. 36) and set the router to use it.  
- If the problem persists, consult your Internet Service Provider or telecommunications company. |
| Cannot select the file during DLNA operations | - Is media server of the connected equipment prepared?  
- Check applicable data format. |
| Cannot operate VIERA Connect | - Check the connections and settings.  
- The server or connected line may be busy now. |

<tr>
<th>Problem</th>
<th>Causes / Actions</th>
</tr>
</thead>
<tbody>
<tr>
<td>The TV does not switch on</td>
<td>• Check the mains lead is plugged into the TV and the socket outlet.</td>
</tr>
</tbody>
</table>
| The TV goes into Standby mode | • Auto power standby function is activated. *(p. 10)*  
• The TV enters Standby mode about 30 minutes after analogue broadcasting ends. |
| The remote control does not work or is intermittent | • Are the batteries installed correctly? *(p. 7)*  
• Has the TV been switched on?  
• The batteries may be running low. Replace them.  
• Point the remote control directly at the front of the TV (within about 7 m and a 30 degree angle of the front of the TV).  
• Situate the TV away from sunshine or other sources of bright light not to shine on the TV's remote control signal receiver. |
| Parts of the TV become hot | • Even when the temperature of parts of the front, top and rear panels has risen, these temperature rises do not cause any problems in terms of performance or quality. |
| The LCD panel moves slightly when it is pushed with a finger | • There is some flexibility around the panel to prevent damage to the panel.  
• The panel might move slightly when it is pushed with a finger, and clattered sound might be heard. This is not a malfunction. |
| Clattered sound might be heard |  
| Overcurrent error message appears | • The connected USB device might cause this error. Remove the device and turn the TV off with Mains power On / Off switch, then turn it on again.  
• Check foreign objects are not inside the USB port. |
| An error message appears | • Follow the message's instructions.  
• If the problem persists, contact your local Panasonic dealer or the authorised service centre. |
Maintenance

First, remove the mains plug from the socket outlet.

<table>
<thead>
<tr>
<th>Display panel, Cabinet, Pedestal</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Regular care:</strong></td>
</tr>
<tr>
<td>Gently wipe the surface of the display panel, cabinet, or pedestal by using a soft cloth to clean the dirt or fingerprints.</td>
</tr>
<tr>
<td><strong>For stubborn dirt:</strong></td>
</tr>
<tr>
<td>First clean the dust on the surface. Dampen a soft cloth with clean water or diluted neutral detergent (1 part detergent to 100 parts water). Wring the cloth and wipe the surface. Finally, wipe away all the moisture.</td>
</tr>
</tbody>
</table>

**Caution**
- Do not use a hard cloth or rub the surface too hard, otherwise this may cause scratches on the surface.
- Take care not to subject the TV’s surfaces to water or detergent. Liquid inside the TV could lead to product failure.
- Take care not to subject the surfaces to insect repellent, solvent, thinner or other volatile substances. This may degrade surface quality or cause peeling of the paint.
- The surface of the display panel is specially treated and may be easily damaged. Take care not to tap or scratch the surface with your fingernail or other hard objects.
- Do not allow the cabinet and pedestal to make contact with a rubber or PVC substance for a long time. This may degrade surface quality.

**Note**
- Design and Specifications are subject to change without notice. Mass and Dimensions shown are approximate.
- For the information of power consumption, display resolution, etc., please refer to Product fiche.
- This equipment complies with the EMC standards listed below.
  - EN55013, EN61000-3-2, EN61000-3-3, EN55020, EN55022, EN55024
Information for Users on Collection and Disposal of Old Equipment and used Batteries

These symbols on the products, packaging, and/or accompanying documents mean that used electrical and electronic products and batteries should not be mixed with general household waste. For proper treatment, recovery and recycling of old products and used batteries, please take them to applicable collection points, in accordance with your national legislation and the Directives 2002/96/EC and 2006/66/EC.

By disposing of these products and batteries correctly, you will help to save valuable resources and prevent any potential negative effects on human health and the environment which could otherwise arise from inappropriate waste handling.

For more information about collection and recycling of old products and batteries, please contact your local municipality, your waste disposal service or the point of sale where you purchased the items. Penalties may be applicable for incorrect disposal of this waste, in accordance with national legislation.

For business users in the European Union
If you wish to discard electrical and electronic equipment, please contact your dealer or supplier for further information.

[Information on Disposal in other Countries outside the European Union]
These symbols are only valid in the European Union. If you wish to discard these items, please contact your local authorities or dealer and ask for the correct method of disposal.

Note for the battery symbol (bottom two symbol examples):
This symbol might be used in combination with a chemical symbol. In this case it complies with the requirement set by the Directive for the chemical involved.
